

Dear Customer,

We thank you for giving us the opportunity to illustrate our catalogue.

This catalogue is completely new compared to the previous versions, which are for this reason overhauled and revised.

In the new catalogue you can choose among 250 colors.

We can obviously dye any other color upon your request.

We kindly invite you to return the attached coupon to allow us to send periodical updates of the catalogue.

Our sales staff is at your disposal for any further information you might require.

We would like to point out that extended use of this catalogue may cause the colors to fade. To prevent this, avoid long exposure of these pages to light sources.

The colors might appear slightly different if reproduced on different tapes due to the differences of the surface of the tapes. This phenomena has to be considered normal.

Various light conditions can as well influence the perception of the colors.

In consideration of the constant improvements requested from one side by technological developments and innovations in general, and from the other by more esthetical exigencies of the fashion field, we inform you that the Riri products are regularly submitted to improvements and renewals.

With our best compliments.

SPECIAL TAPES

- Weave of polyester and viscose threads covered by a metallic thin layer to obtain a lamé effect.

lurex

- Manufactured tape with raw polyester threads. Not recommended for garment dye due to high temperatures, which could damage the synthetic or metallic parts of the zipper.

998

- Cotton tape, suitable for garment dye products. Dyeing tests on samples are necessary before starting production.

1000

- Particular thread of aramidic fibres non-inflammable but charring and self-extinguishing. It resists to temperatures close to 400°C.

- Tape woven with yarns made of continuous fibers with a particularly strong fabric pattern. Ideal for any application on leather goods.

P5

- Lightened tape in warp and weft, ideal for knitwear.

M2

- Tape created by the yarn of a particular polyammid which takes a soft and delicate effect typical of the velvet tissue through a process of raising and cutting.

Velvet

- Tape made in shining polyester to obtain a visual impact and a touch sensation similar to silk.

Per le cerniere Decor i cursori sono laccati nello stesso colore della catena
Die Schieber der Decor Reissverschlüsse sind in der gleichen Farbe der Kette lackiert
Pour les fermetures Decor les curseurs sont laqués dans la même couleur de la chaîne
For Decor zippers sliders are usually enamelled in the same colors of the chain

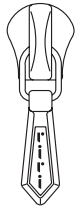

Per le cerniere Eloxal sono disponibili solo cursori laccati
Für die Eloxal Reissverschlüsse sind nur die lackierte Schieber lieferbar
Pour les fermetures Eloxal sont disponible seulement les curseurs laqués
For Eloxal zippers are available only the enamelled sliders
