Single Use Surgical Instruments

PACK PER CASE

Pack per case – Procedure sets

„All inclusive“: – high quality single use instrumentation
– all required consumables

At your finger tips! Ready for use when required:

- instantly available
- always complete
- always sterile (sterilised in acc. to validated sterilisation process)
- reliable
- procedure related cost transparency
- no additional service cost (e.g. repair cost, etc..)
- always up-to-date

The extensive B. Braun range offers you new opportunities and establish a new quality standard in the area of procedure sets.

Pack per case – The special set

B. Braun Aesculap procedure sets make a difference, independently if used for small procedures or for treatment of large wounds. Our "Pack per case" range of procedure sets include all the single use products which hospitals, clinics and practitioners rely upon every day. However the surgical instruments in the sets make the difference. They are high performance precision instruments, although designed for single use. No wonder, Aesculap instruments represent quality, economic efficiency and reliability since generations.

SUSI® – The difference

SUSI® (Single Use Surgical Instruments) Instrumentation is a special range of single use surgical instruments. Utilising proven established design patterns and the use of light high performance polymers for the production provides you with high precision instruments with excellent mechanical properties. The material used allows simple and environmentally friendly incineration utilising existing disposal systems in hospitals.

SUSI® instruments are also available individually sterile packed in a dispenser box.

The choice is yours – Establish a new standard

"Pack per case" procedure sets have proven their suitability on hospital wards, in intensive care units, A&E Departments, Outpatient Departments, Nursing homes, GP surgeries & practices and can also be used by ambulance services. For all these areas of application, SUSI® procedure sets not only offer medical advantages but also plenty of savings potential. Should you have specific needs and requirements (i.e custom made sets or economic analysis) please do not hesitate to contact us.

Aesculap® SUSI®

Single Use Surgical Instruments

CLINIC LINE

A new standard for surgical instruments

SUSI® (Single Use Surgical Instruments) is a unique range of surgical instruments. With SUSI® you get high level innovation and performance in a new but at the same time familiar and proven design. SUSI® instruments are manufactured from a light, high performance polymer. The special composition of this polymer ensures outstanding accuracy and offers excellent mechanical characteristics.

In developing SUSI® ClinicLine, we have focussed in particular on the requirements on the ward and in outpatient departments. In these areas it is essential to have sterile, functional and safe surgical instruments available quickly and at low process costs. With SUSI® ClinicLine we can offer you the right solution.

SUSI® helps you in your daily work with many positive features and advantages

Safety

SUSI® reduces the risk of cross-contamination through surgical instruments.

Quality assurance

- With SUSI® you always have a new instrument which ensures 100% functionality for the intended use
- SUSI® will be supplied sterile packed and are sterilised in a validated process

Economical Aspects

- SUSI® provides a clear cost allocation according to DRGs
- SUSI® leads to a reduction of processing costs in the hospital

Material

SUSI® are made from a high performance polymer. The special composition of this high-grade polymer ensures an outstanding quality and provides optimal mechanical properties for the intended function of each instrument. This material ensures a safe, easy and environmentally friendly removal through incineration in the regular hospital waste removal system.

Packaging

SUSI® are sterile packed in single peel packs. The single peel packs are presented in dispenser boxes containing an indicated quantity of units as described in this leaflet.
