Irene, 54  
Traditional healer, Salzburg

Welcome to my world!

« Flooring has a supporting role for me, in two different senses: on the one hand, because I'm very sensitive to noise for several different reasons. On the other hand, because flooring has a great impact on the atmosphere of a room.

It was a gut feeling when I chose EGGER's Comfort flooring, and my feet approve of this decision every single day!

»

# EGGER.

More from wood.

Since establishment in 1961 in Tirol, Austria, everything at EGGER is about wood. This living material is unequalled in maintaining a healthy ambient air, creating a pleasant atmosphere, and providing quality. This is what we believe in, and you can be sure that with every EGGER flooring you bring a little piece of nature into your home.

But there are other reasons why millions of people across the world share their homes with EGGER. The diversity of decors – in the case of EGGER laminate flooring you can currently choose from more than 70 designs – gives you the possibility to have free reign for your personal style. And for good reason: Due to the robust properties, our products will be with you for many years to come.

We see ourselves as part of your life. This is what we work for. And this is why here at EGGER, we keep developing our flooring even further.

# Overall »» One home.

Three different flooring types.  
One surface design.

Nothing has a greater impact on the atmosphere of your home than the flooring. When selecting a floor previously the consumer was forced to make compromises, your preferred decor couldn't be used in the bathroom because it wasn't suitable for wet areas for example. This is now all in the past! With the new EGGER Collection, you can now enjoy one decor throughout your home. The floor characteristics can be adapted to the requirements of each room. A cosy atmosphere in the living room. Robust properties in the entrance way. Quiet for the children's rooms, even with the wildest games. And the bathroom has no fear of water!

How does this work? One decor, three different EGGER floor types with individual advantages:

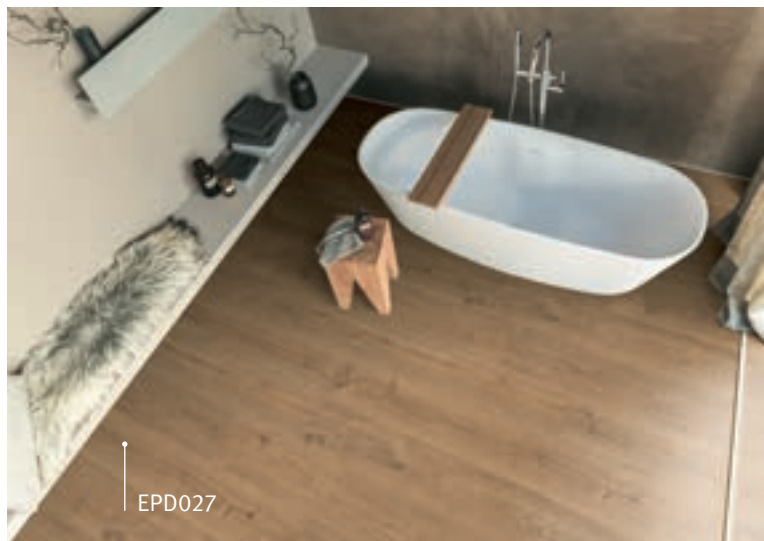

Your specialised retailer is happy to advise you.

All EGGER floors can be combined with each other using coordinated connection profiles. Allow your specialised retailer to advise you on the right floor for each room!

For commercial and wet areas:

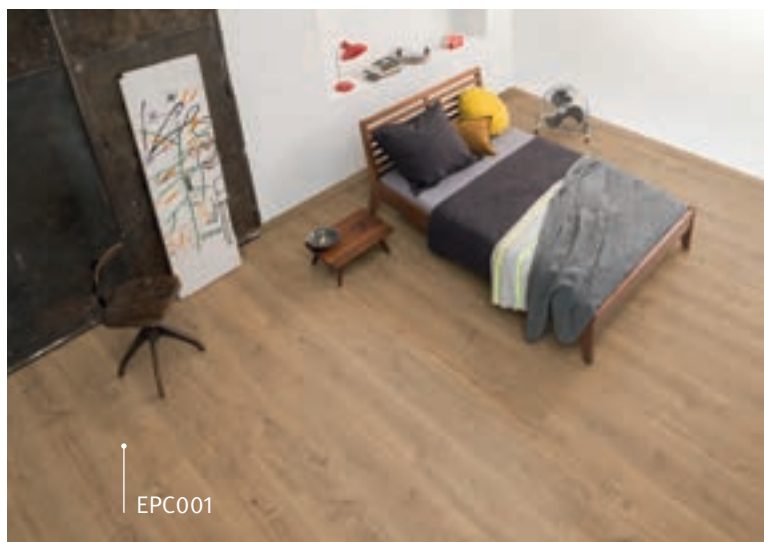

**The best of wood and design:  
EGGER PRO Design Flooring.**

For life's relaxed moments:

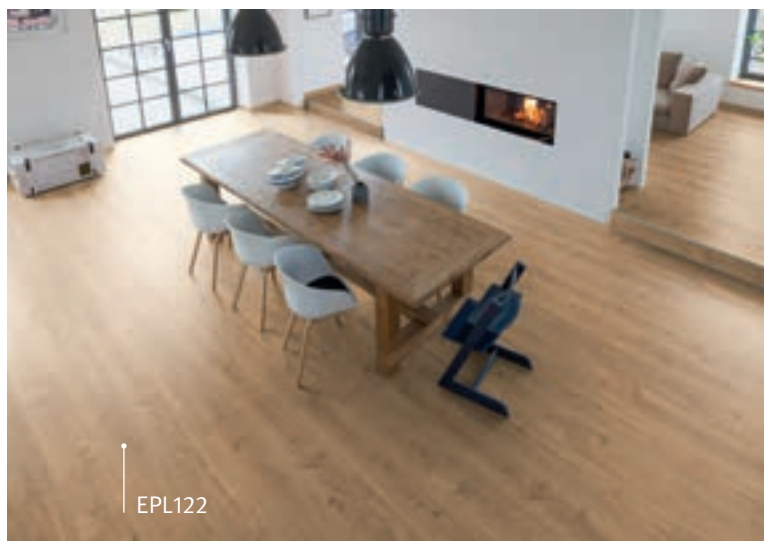

**A floor designed for comfortable living:  
EGGER PRO Comfort Flooring.**

For the living rooms:

**The perfection of a classic:  
EGGER PRO Laminate Flooring.**

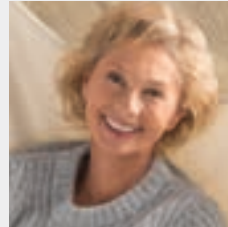

EPC014

# Don't settle for compromises.

Thanks to their high quality, EGGER floors stay with you for a large part of your life. Professional installation not only grants a claim to our generous warranties. It also lets you enjoy your new floor even more. Thanks to know-

how and experience, your specialist has a solution for particularly difficult places such as pipe cuttings around radiators, uneven floors, or transition areas towards tiles and carpeting.

« I don't reach for a dental drill when I have a tooth ache. I also don't think I'm able to install a floor as well as a specialist would. Which is why I trusted that my specialised retailer would take care of it for me. »

EPC028

Entirely according to your taste: Choose from 28 decors, the one floor that is a perfect match for your design style.

Made for life.  
EGGER Comfort flooring.

## Relax.

Protecting your new floor? Don't worry, we've already thought about it. The surface of EGGER Comfort flooring is exceptionally easy to care for. In addition to the impact of significant sun exposure, EGGER flooring is resistant to UV light and therefore maintains colour.

Surprisingly robust: Resistant to lasting marks and very easy to care for.

A naturalness you can feel.

Tranquil zone: The double cork layer inside the boards absorbs footfall and ambient noise.

# Comfortable living in a new dimension.

## **Certainly a good feeling.**

The surface texture gives EGGER Comfort flooring more than just a strikingly authentic character. It also ensures a quiet and warm feeling - even if your children love to slide.

No PVC, no poisonous dyes. The main ingredient of EGGER Comfort flooring is wood and cork from PEFC-certified forests.

Barefoot the whole year round: The air pockets in the cork layers store heat and invite you to walk barefoot.

# A system for well-being.

Everything from a single source: From the profile skirting to the floor cleaning product – the EGGER accessories range is perfectly coordinated and guarantees extra-long service life.

## Not “just for greenies”.

Cork floors come with a certain “sandals and muesli image”. No wonder, since a cork floor is a must-have if you care about ecological and sustainable features in your flooring. We’ve merged these advantages in the EGGER Comfort flooring collection with modern design in order to achieve a contemporary look. The cork appearance has disappeared, but the wonderful feeling under your feet remains.

Ideal playground: jump around and play ball in the children’s room with no fear.

Harmonious presentation: Skirting boards in decor colour, complete the general appearance.

# There is no limit to your creativity.

Enjoy the freedom to live out your style. Wooden look in the bathroom? Stone effects that feel warm? Or ornamental patterns on the floor as a contrast to the fixtures? Talk to the specialist consultant in your flooring studio. You will be surprised by all the possibilities!

EPC008

## Wood reproductions

The classic for a warm, cosy atmosphere. Unsurpassed in the selection of decors and the range of colour tones and types. In addition, boards are available in a wide variety of formats and as two-plank, three-plank and herringbone look.

EPC023

## Stone effects

The surprise when walking barefoot – looks cool, but feels warm. From elegant marble to strong slates, these decors are particularly popular for kitchen, hallways, and bathroom.

EPC017

## Creative decors

For that special something: The decorative designs add that certain extra touch to every room. As a contrast to the furniture or as a surprise moment in the children's room – this is where your creativity can be used.

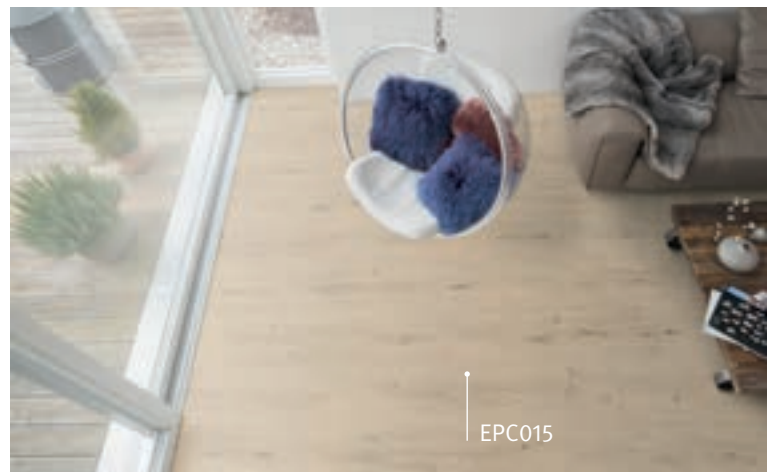

## Create an atmosphere!

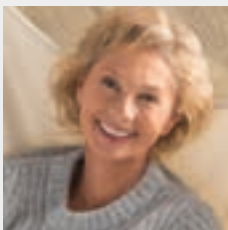

The colour tone can significantly enhance the atmosphere of a room. Cosy? Lively? Or a little bit of both? The colour of the floor is your starting point.

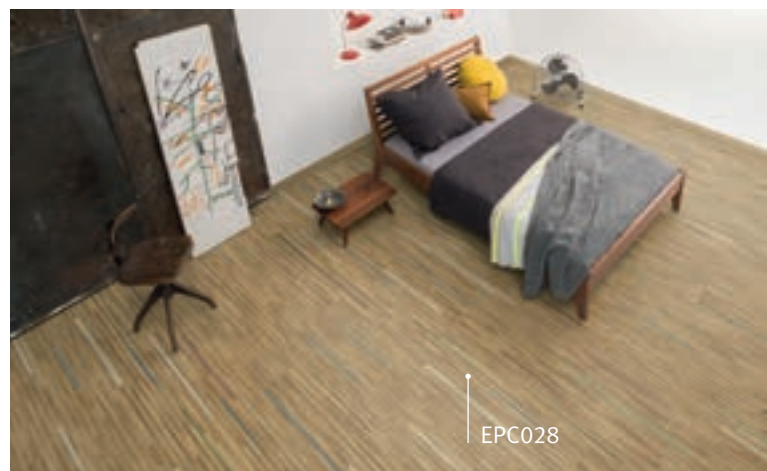

Dark colours make a home feel cosier, and smaller rooms look larger.

Lighter tones can create a friendly and lively effect.

« Wood has a calming effect on me. It exudes warmth, which gives me a feeling of well-being. »

Prefer both? The medium-light decors provide a compromise to capture the best of both worlds.

The tools of interior designers.

# Board formats chosen correctly.

Using a board of the perfect length and width, the impression created by a room can be influenced significantly. To highlight a generous space, select larger formats. Small rooms can benefit from a medium sized board. The use of bevelled edges further enhances the effect of the selected style.

**Classic:** 1291 × 193 mm

Suitable for any room, boards have balanced proportions.

**Large:** 1291 × 246 mm

Produces the effect of generous space and works particularly well for country house decors.

**Long:** 2 050 × 245 mm

The choice for large-surface room designs and open-plan living. Also increases the effect of long, narrow rooms.

**Kingsize:** 1291 × 327 mm

Large rooms deserve our Kingsize. decors unfold their full beauty through both wooden and tile decors.

# Atmosphere part 2: Breathe life into your home!

Allow the decor to control the impression made by your home. Harmonious tones contribute to a calming atmosphere. A little boring?

Introduce your customer to decors with a more lively vibe. For example colour play or natural features such as cracks and knots.

EPC014

Homogeneous sorting soothes the general appearance.

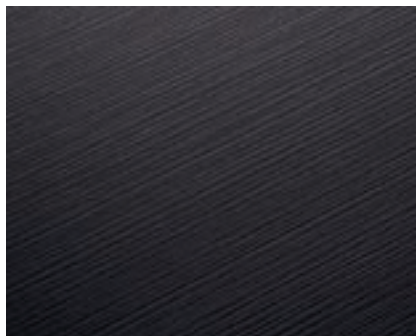

EPC024

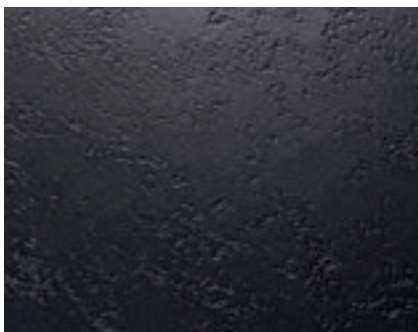

A little boring? Colour play, cracks and natural knots in every single board have a lively effect on the room atmosphere.

# Unreal and authentic.

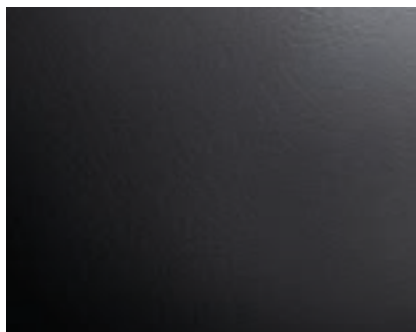

Striking surface textures give character to your floor, and are still easy to clean. A nice side effect: Sure-footedness increases, the slipping risk decreases.

Deepskin – Striking texture with depth

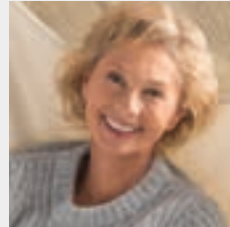

Matex – Irregular, rough character

Smoothtouch – Natural and velvety surface

« We chose the board format Large for our open-plan kitchen in order to make the room look even bigger. We chose the natural and velvety texture of Smoothtouch for the surface. »

# The trends in interior design.

The design preference shows off your own style, but also the values and tendencies of our times. EGGER works

closely with internationally known trend researchers to find the right floor for the right times.

## Pure Nature

Warm and elegant, rustic and timeless: the embodiment of pure naturalness.

## Used Novelty

This is how creative, lively and playful interior design can be. Used Look meets patterns, pale tones meet bright colours.

EPC025

EPC013

## Modern Classics

Classics are reinterpreted and combined with new colour concepts.

## Light Living

This trend looks bright and friendly, and is based on loft architecture and Scandinavian design. The design is reserved and gives you the spotlight.

# Perfection down to the details.

EGGER's innovation drive hasn't missed one detail of the structure or everyday existence of floors in the past 60 years. Click systems that provide additional stability? Surfaces that are so difficult to damage? Noise-absorbing solutions? Technical redevelopments with one objective: Your joy and satisfaction when you come home.

## The structure of EGGER Comfort flooring.

- 1 Environmentally-friendly UV protective layer
- 2 HD digital decor print
- 3 Elastic comfort layer made of cork
- 4 HDF swell barrier+ coreboard made of natural wood fibre
- 5 Integrated noise reducing cork underlay

## Comfortable

No more need for slippers: unique barefoot walking comfort. Easy to care for, thanks to the robust structure.

## Warm under your feet

Never have cold feet again thanks to 40 million thermo-insulating cork cells.

## Silent

Works against stress: less noise – less echo. EGGER Comfort flooring creates a special atmosphere in the room.

# Long lifespan.

The best tip for the long service life of your EGGER Comfort floor? Use the coordinated EGGER system products. From the correct underlay to the skirting

in the decor of the floor, through to the special cleaning product – a perfect finish is as certain as the generous warranty.

## Moisture barrier

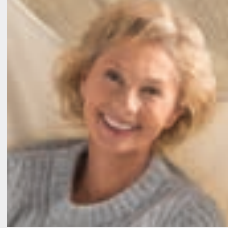

Adapted for the sub-floor and your requirements: Vapour barrier? It's your choice.

## Skirting boards and floor profiles

6 or 8 cm height? White or decor design? Our selection gives you complete freedom.

Movement profiles guarantee the stability of the floor, also in large rooms. EGGER offers various materials, colours, thicknesses, and lengths.

« I've turned my home into a small wellness island. The flooring is an important factor. »

## Care and installation tools

System-related care products complete the range. Their regular use ensures the lasting beauty of the floors. We offer the right solution for special installation projects and small repairs.

# One brand. All options.

EGGER covers the entire range of wooden flooring in the laminate, comfort and design flooring segments. With our three flooring categories you have a solution for every situation.

## EGGER PRO Design Flooring.

- The look & feel of wood – but as easy to care for as ceramics.
- Seamless floor design in all rooms – even in the bathroom thanks to its moisture resistance.
- Long-term beauty – due to the microscratch resistant and self-healing surface.
- Also suitable for commercial applications.

## EGGER PRO Comfort Flooring.

- Looks like a wooden floor board, but is made with cork.
- So warm: barefoot in all seasons with the insulating cork layer.
- Quiet steps: more comfort using a double impact sound insulation.
- Healthy atmosphere: good for your health, environmentally-friendly, and 100 % PVC-free.

## EGGER PRO Laminate Flooring.

- Perfect look. Pleasant feel. Best price-performance ratio!
- Resistant and strong.
- With Aqua+ technology also suitable for wet areas.
- Large choice of decors.

## All EGGER flooring provides the following advantages:

- Long product life and colour fast, even in the case of intensive sun exposure.
- Additional stability through patented installation systems.
- Certified anti-slip resistance.
- Tested quality: EGGER flooring exceeds legal standards. Every board is checked prior to delivery.
- Excellent noise insulation through underlays adapted to the type of flooring.
- Generous guarantee due to high product quality.
- Very sustainable as 100 % recyclable.
- Naturally wood-based and 100 % PVC-free.

# The decision made easy.

How can you create accents with a flooring decor? Which decor works with your interior? EGGER is happy to assist you in finding your new favourite floor. We provide numerous services to this end.

## Virtual room visualisation. (VDS)

What would the new decor look like in your home? The answer to this question is available on the EGGER website or with your retailer. With the help of the room visualisation software VDS, you can install the desired decor for viewing inside your home – virtually. This will give you an idea of how well the new floor will go with your interior.

## The best interior design ideas from around the world.

Be inspired: Our designers collect the best living trends and ideas on our website [www.egger.com/inspiration](http://www.egger.com/inspiration) and on our Instagram account. You will soon overflow with new ideas for your home!

## Order your decor sample.

Touch, set, try out: Nothing is better than seeing a real piece of your desired decor inside your home. We'd love to send you a decor sample. More details are available at [www.egger.com/shop](http://www.egger.com/shop).

# At home in nature.

EGGER has taken the closed loop sustainability cycle in nature as a model in order to ensure production

is as resource-friendly as possible. This begins with the PEFC-certified raw material. We use only wood from forests that have proven sustainable management. We invest in fully integrated locations in order to limit transport to a minimum. Sawmill, chipboard processing and laminate production are right next to each other. Our network of global locations saves

on transport emissions, as does our decision to give priority to rail transport. Waste? EGGER doesn't really have any. All by-products are reused in circuits that protect resources. Environmental certification and labels allocated to EGGER, such as the coveted Blauer Engel or the strict international US standard CARB 2, are sufficient motivation to continue on this path.
