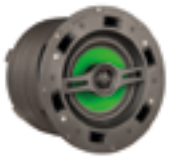
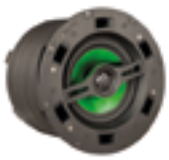
IN CEILING SPEAKERS



IC6-B

WOOFER	6.5" Injected Poly
TWEETER	1" Silk Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

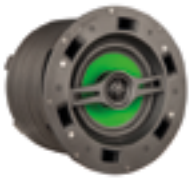


IC6-MB

WOOFER	6.5" Ribbed Injected Poly
TWEETER	1" Aluminum Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

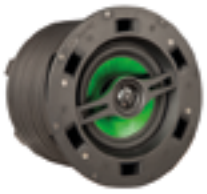
IC6-BB

WOOFER	6.5" Carbon Fiber
TWEETER	1" Titanium Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm



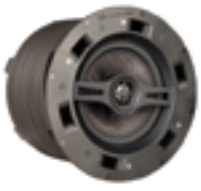
IC8-B

WOOFER	8" Injected Poly
TWEETER	1" Silk Dome
FREQUENCY	38 Hz - 22 kHz
CUTOUT	261,5mm
DIAMETER	284mm
DEPTH	219,5mm



IC8-MB

WOOFER	8" Ribbed Injected Poly
TWEETER	1" Aluminium Dome
FREQUENCY	38 Hz - 22 kHz
CUTOUT	261.5mm
DIAMETER	284mm
DEPTH	219.5mm



IC8-BB

WOOFER	8" Carbon Fiber
TWEETER	1" Titanium Dome
FREQUENCY	38 Hz - 22 kHz
CUTOUT	261.5mm
DIAMETER	284mm
DEPTH	219.5mm

IN CEILING ANGLED SPEAKERS

ICA6-B

WOOFER	6.5" Injected Poly
TWEETER	1" Silk Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

ICA6-MB

WOOFER	6.5" Ribbed Injected Poly
TWEETER	1" Aluminum Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

ICA6-BB

WOOFER	6.5" Carbon Fiber
TWEETER	1" Titanium Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

DUAL COIL SPEAKERS

IC6DVC-B

WOOFER	6,5" Injected Poly
TWEETER	1" Silk Dome
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

BS SERIES

BS650

WOOFER	Poly (Sonic Vortex not inc)
TWEETER	1" Silk Dome
FREQUENCY	60 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	84mm

IN WALL/IN CEILING SPEAKERS

ICW4-MB

TWEETER	3/4" Silk Dome
WOOFER	4" Injected Poly
FREQUENCY	68 Hz - 22 kHz
CUTOUT	162mm
DIAMETER	186mm
DEPTH	97mm

ICW6-MB

TWEETER	1" Silk Dome
WOOFER	6.5" Injected Poly
FREQUENCY	46 Hz - 22 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	98mm

70/100V SPEAKERS

TICW401

SPEAKER TYPE	4" Fluted Reinforced Poly
WOOFER	3/4" Aluminium Dome
FREQUENCY	68 Hz - 20 kHz
CUTOUT	162mm
DIAMETER	186mm
DEPTH	97mm

TIC651

SPEAKER TYPE	Ribbed Injected Poly
WOOFER	1" Aluminium Dome
FREQUENCY	48 Hz - 20 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

TIC801

SPEAKER TYPE	Ribbed Injected Poly Cone
WOOFER	3/4" Aluminium Dome
FREQUENCY	62 Hz - 20 kHz
CUTOUT	162mm
DIAMETER	241.4mm
DEPTH	70.2mm

TU401 - PANCAKE

SPEAKER TYPE	4" Ribbed Injected Poly
WOOFER	1" Aluminium Dome
FREQUENCY	62 Hz - 24 kHz
CUTOUT	162mm
DIAMETER	241.4mm
DEPTH	70.2mm

PANCAKE SPEAKERS LESS THAN 3" DEEP

IPLCR4-MB

SPEAKER TYPE	Dual 4" Fluted Injected Poly
WOOFER	1" Aluminium Dome
FREQUENCY	62 Hz - 24 kHz
CUTOUT	465 x 222mm
DIAMETER	498.4 x 255.4mm
DEPTH	71.5mm

IPLCR4-BB

SPEAKER TYPE	Dual 4" Carbon Fiber
WOOFER	1" Titanium Tweeter
FREQUENCY	62 Hz - 20 kHz
CUTOUT	465 x 222mm
DIAMETER	498.4 x 255.4mm
DEPTH	71.5mm

P4-MB

SPEAKER TYPE	4" Fluted Injected Poly
WOOFER	3/4" Aluminum Dome
FREQUENCY	62 Hz - 24 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	70mm

P4-BB

SPEAKER TYPE	4" Carbon Fibre
WOOFER	3/4" Titanium Dome
FREQUENCY	59 Hz - 25 kHz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	70mm

SUBWOOFERS

ICS6-MB

SPEAKER TYPE	In Ceiling Sub
WOOFER	6.5" Kevlar
FREQUENCY	42 Hz - 300 Hz
CUTOUT	214mm
DIAMETER	239mm
DEPTH	172mm

ICS8-MB

SPEAKER TYPE	In Ceiling Sub
WOOFER	8" Kevlar
FREQUENCY	35 Hz - 300 Hz
CUTOUT	261,5mm
DIAMETER	284mm
DEPTH	219,5mm

INFRARED SOLUTIONS

IR6B

- COLOR CODED CONNECTIONS FOR EASE OF INSTALLATION
- RJ45 EXPANSION PORT
- 6 ADJUSTABLE OUTPUTS
- ABILITY TO DRIVE 12 DEVICES

IRED - IR EMITTER DUAL

- COLOR CODED CONNECTION FOR EASE OF INSTALLATION
- CONTOUR MALLEABLE CIRCUIT FOR BETTER ADHESION
- WITH TALKBACK LED

IRES - IR EMITTER SINGLE

- COLOR CODED CONNECTION FOR EASE OF INSTALLATION
- CONTOUR MALLEABLE CIRCUIT FOR BETTER ADHESION
- WITH TALKBACK LED

IRFED - IR FLEX EMITTER DUAL

- COLOR CODED CONNECTION FOR EASE OF INSTALLATION
- WITH TALKBACK LED
- CONTOUR FLEX CIRCUIT FOR BETTER ADHESION
- CAN BE CUT TO FIT ANY INSTALLATION

IRFES - IR FLEX EMITTER SINGLE

- COLOR CODED CONNECTION FOR EASE OF INSTALLATION
- WITH TALKBACK LED
- CONTOUR FLEX CIRCUIT FOR BETTER ADHESION
- CAN BE CUT TO FIT ANY INSTALLATION

IRKSTI

KIT INCLUDES:
1 - IRST SURFACE MOUNT IR RECEIVER WITH TALKBACK LED
1 - TABLETOP ADAPTER
1 - IRB6 CONNECTING BLOCK WITH VARIABLE IR OUT AND ACTIVITY LED
4 - IRES IR EMITTERS WITH VISUAL OUTPUT CONFIRMATION LEDS
3 - TRIM RINGS (1 EACH: SILVER, WHITE, BLACK)
1 - 12VDC, 500MA POWER SUPPLY

IRKNI

KIT INCLUDES:
1 - IRN NANO IR RECEIVER WITH TALKBACK LED
1 - TABLETOP ADAPTER
1 - IRB6 CONNECTING BLOCK WITH VARIABLE IR OUT AND ACTIVITY LED
4 - IRES IR EMITTERS WITH VISUAL OUTPUT CONFIRMATION LEDS
1 - 12VDC, 500MA POWER SUPPLY

IRST

- COLOR CODED CONNECTION FOR EASE OF INSTALLATION
- SURFACE TABLETOP RECEIVER
- WITH TALKBACK LED

AMPLIFIERS

IA1250

AMP TYPE 12-CHANNEL, 6-ZONE AMPLIFIER
POWER INTEGRATED
12 X 30W INTO 8Ω
12 X 50W INTO 4Ω
HIGHLIGHTS
- 8Ω/70V/100V ASSIGNABLE PER ZONE
- SEPARATE VOLUME/BASS/TREBLE PER CH
- IR CONTROLLED PER ZONE
- RS232

A100

AMP TYPE HIGH EFFICIENCY CLASS D
POWER 1X100W SUBWOOFER AMPLIFIER
HIGHLIGHTS
- COMPACT CHASSIS
- COOL, EFFICIENT DIGITAL DESIGN
- STEREO OR MONO AUDIO LINE LEVEL INPUT (RCA)
- VARIABLE CROSSOVER 40-160 H

A120

AMP TYPE HIGH EFFICIENCY CLASS D
POWER 1X120W SUBWOOFER AMPLIFIER
HIGHLIGHTS
- COMPACT CHASSIS
- COOL, EFFICIENT DIGITAL DESIGN
- STEREO OR MONO AUDIO LINE LEVEL INPUT (RCA)
- VARIABLE CROSSOVER 40-160 H

D2.1

AMP TYPE HIGH EFFICIENCY CLASS D
POWER 40W / CHANNEL @ 8Ω
60W / CHANNEL @ 4Ω
HIGHLIGHTS
- IOS/ANDROID BLUETOOTH INTERFACE (OPTIONAL)
- IR LEARNING CAPABILITY
- COMPACT CHASSIS DESIGN ALLOWS FOR A SPACE-SAVING INSTALLATION

DBT-TAYLOR

THE DBT-TAYLOR PROGRAMING MODULE CONNECTS TO ANY BEALE AMPLIFIER WITH AN RJ45 RECEIVER IN PORT.
IT ALLOWS CONFIGURATION OF AMP SETTINGS FROM THE TAYLOR APP RUNNING ON EITHER AN ANDROID OR IOS TABLET.
IF BLUETOOTH 4.0, A2DP, (ADVANCED AUDIO DISTRIBUTION PROFILE A.K.A BLUETOOTH AUDIO STREAMING) AND AVRCP, (AUDIO/VIDEO REMOTE CONTROL PROFILE) COMPATIBLE.
SETUP OPTIONS WILL VARY A BIT FROM AMP TO AMP DEPENDING UPON AMP DESIGN AND FEATURES.

EZ-BRACKETS

EZ-BRACKET

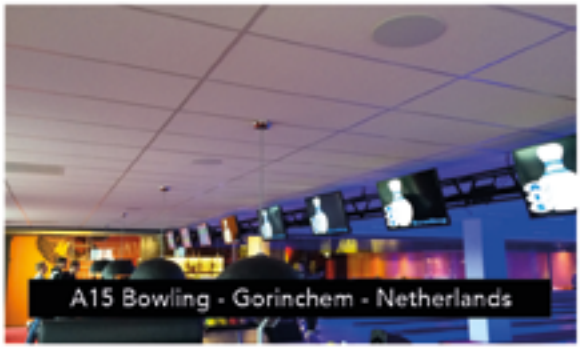
- One Bracket Fits All.
- Allows installers to have one speaker bracket on the job site.
- Corrugated frame attached directly to ceiling joists with a staple gun for easy installation.
- Pre-printed ruler on all sides ensures perfect alignment for each bracket and installed light cans.
- Metal ring gives a sturdy guide and prevents cut-through with a RotoZip® tool.
- Availible in 2-pack or 24 pack.

Restaurant Bras 73 - Leusden - Netherlands

BEALE SPEAKER MOUNTING SYSTEM

BSMS - SPIDER

- Set contains: 3 Spiders, 2 nuts for mountingpole and 3 screws for speaker.
- Fits both 6 inch & 8 inch Beale Speakers.



A15 Bowling - Gorinchem - Netherlands

BSMP - POLE

- The galvanized extension pole (M10x100mm) is designed to allow cables to be passed trough.
- With triangle hook and nut for fixation.

Finca Giardino - Manacor - Spain

BSCC

- Beale Speaker Cover closed.
- Stainless Steel.
- Availible for 6" and 8" Beale speakers.
- For a neat and stylish industrial finish.

Beale Street Historic District - Memphis - USA

BSCP

- Beale Speaker Cover perforated.
- Stainless Steel.
- Availible for 6" and 8" Beale speakers.
- For a neat and stylish industrial finish.

BEALE STREET AUDIO INC.

SOUND. REINVENTED.
Complex simplicity that took years to develop. Our patented Sonic Vortex® Technology produces amazing bass and effortless clarity in an integrated enclosure. It is literally a "twist" on ported transmission line design, which optimizes air movement to provide astonishing sound in a compact speaker.

WHY BEALE STREET AUDIO?
Does the world need another speaker? It does if it utilizes a technology that elevates the performance far above all others, while still being extremely competitive in price and also easy to install.

TECHNOLOGY
Powered by Sonic Vortex® Technology for deep, rich bass unlike anything you have heard in a small enclosure. Listen once and the story will tell itself.

COMPONENTS, PERFORMANCE & QUALITY
For each model we carefully match the correct drivers, crossovers and other components to provide outstanding performance and the best value for the money. We combine the amazing Sonic Vortex powered bass, with clarity in the midrange and high frequencies and provide smooth, even imaging as well. Our factories, engineers and designers are some of the best in the industry. Limited Lifetime Warranty on Passive Speakers, 2 years on Subwoofers and Amps.

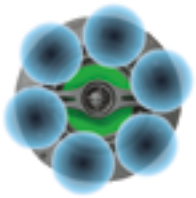
All speakers are powered bij Sonic Vortex® Technology TM.

All Speakers come with an 'edgeless", white paintable and magnetic grill.

Specs and images are subject to change.

Beale Street Audio and Sonic Vortex® are trademarked with multiple patents and additional patenst pending.

Patents and addional patents pending.



Speaker companies have worked for decades to reduce the size of their cabinets while maintaining quality sound. Smaller cabinets have high consumer appeal and more flexible placement options. Unfortunately, to achieve high quality sound, physics tend to get in the way. Until now.

Put simply, Sonic Vortex® Technology combines proven design methods with what would traditionally be a very long port and wraps it around the internal cavity of the enclosure. It equates to a "complex simplicity" that took years to develop. This produces bass that far exceeds what you would expect from a small cabinet. The main port is seperated into multiple ports containing what we call fins. The fins can be designed and adjusted to maximize the sound in enclosures of various sizees and depths, even very shallow ones. This design also makes the cabinet more rigid for further acoustical reinforcement.

Another huge benefit to this design is that the cost to manufacture is about the same as a traditional enclosure. It does not require specially designed drivers although we choose and match the correct drives for the application. Another feature that sets Sonic Vortex® Technology apart from others is that it can be scaled to be utilized in anything from an Architectural speaker to almost any other application. This includes outdoor speakers, bookshelf, monitors, computer speakers, portable speakers and much more.
