

BS-75 FLOOR STRIPPER

A SMALL ELECTRICAL DRIVEN FLOOR STRIPPER

The BS-75 is a powerful self-propelled machine, ideal for indoor and outdoor medium sized renovation jobs. This floor stripper is constructed of rugged metal for longevity and durability on the worksite. The BS-75 has a forward and backward function and is equipped as standard with speed control. With mainly electronic components, this floor stripper requires almost no maintenance to keep it running at peak performance.

- The upper part of the frame is adjustable for an ergonomic operating height
- The adjustable handle also gives the opportunity to fold it up as a compact machine for easy transportation
- Integrated electrical box
- New bigger and wider back support
- By sliding the left handle, you are able to work close to the wall
- The blade cover has countersunk holes to avoid debris getting stuck on them
- The BS-75 can be easily taken apart in 3 pieces by unscrewing 2 handles for easy transportation
- Very low hand-arm vibrations

USER FRIENDLY

Blastrac floor strippers are user friendly to operate and barely create any vibrations. They are extremely quiet, this allows work to continue alongside other trades and personnel in the vicinity.

STRONG & COMPACT DESIGN

The BS-75 can be easily taken apart in 3 pieces by unscrewing 2 handles. The weight block of 27 kg will slide off and the steering handle can be taken off to have a part of 32 kg. The front handle is able to set in 3 different positions for ergonomic lifting of the drive frame.

LOW MAINTENANCE

All Blastrac floor strippers have a fast return on investment; machine components barely need replacing.

AS FROM 152 MM

128 KG EXCL. EXTRA OPTIONAL WEIGHT OF 10KG

WORKING POSITION 872 MM | 515 MM | 1.069 MM
FOLDED POSITION 654 MM | 515 MM | 741 MM

BLADES & CHISELS

Depending on the type of flooring material you would like to remove, you can choose from a wide range of blades or chisels. Ask us for advice!

AVAILABLE OPTIONS

It is possible to add an additional 10 kg weight to mount on the weight block, in order to make the BS-75 more efficient on resilient floors. A blade protection with swivel wheel is also optional for improved safety during transportation. A blade package is available to fit all your needs.

GREEN TECHNOLOGY

Our floor strippers, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
