## Technical data Sheet

REV 00 of 20.10.2012

# OIL GOLDSIZE 12H

### DESCRIPTION:

Borma Wachs OIL GOLDSIZE 12H ideal for the application of gold and silver leaves of all kind on all supports (wood, gypsum, metal, etc.). Suggested also for imitation metal leaves. For indoor and outdoor use.

### CHEMICAL/PHYSICAL CHARACTERISTICS:

<b>Composition:</b>	Natural oils in white spirit
<b>Form:</b>	Oily liquid
<b>Colour:</b>	Amber
<b>Odour:</b>	Tung
<b>Solubility:</b>	Not soluble in water

### HOW TO USE:

Apply with a plate brush over a smoothed surface, then let dry in a protected from dust place, for a time between 3 and 12 hours. The product is ready when it is sticky to touch and adheres to the support; if not wait a little more. Then apply the gold leaf.  
Clean possible residuals of product with turpentine.

### STORAGE:

Store in a cool, well ventilated place, keep the container closed when not used. Keep away from heat, flames, sparks and other sources of ignition.

### PACKAGING:

The product comes in 250 mL, Lt. 1, Lt. 5 and Lt. 15 sized cans.

### WARNING:

Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs.

We will ensure the continuity of the chemical-physical properties.
