# GILDER'S TIP

Pure squirrel

### DESCRIPTION:

Special flat brush in pure squirrel hair, with extra light for traditional gilding process. Its special flat shape allows the easy transfer of metal leaf from the Gilding cushion to the surface to be gilded, avoiding the contact with hands. Ideal for genuine gold leaves.

### CHARACTERISTICS:

Available sizes:

CDO7163 – “2” cm 5

CDO7163A – “2,5” cm 6,2

CDO7163B – “3” cm 7,5

### METHOD OF USAGE:

Always keep the brush clean and dry. Do not use to apply liquid products.

After cutting the metal leaf on the cushion, gently press the Gilder's tip on the cut piece and lift it, then transfer it to the surface to be gilded. If the hair has not enough adhesion on the metal leaf, just rub it on your palm or face before the usage.
