Wood Professional Cosmetics

## Technical data Sheet

REV 00 of 20.10.2012

# GOLD SHELL

### DESCRIPTION:

High quality mixture of pure Arabic gum and genuine gold powder, Borma Wachs GOLD SHELL is perfect for the touch up of the surface gilded with original gold leaves.

### CHEMICAL/PHYSICAL CHARACTERISTICS:

<b>Composition:</b>	Blend of Arabic gum, Gold powder, Silver powder
<b>Form:</b>	Solid
<b>Colour:</b>	Gold
<b>Odour:</b>	Odourless
<b>Solubility:</b>	Water dilutable

### HOW TO USE:

Using a very thin brush, solve a small quantity of gold shell with water. Take the amount you need to make the touch-up and then let dry (drying time depending on temperature and relative humidity of the environment).

When the Arabic gum is dry is it possible to burnish it with agate stones.

### STORAGE:

Store in a cool, well ventilated place, keep the container closed when not used. Keep away from heat, flames, sparks and other sources of ignition.

### PACKAGING:

The product comes in shells of 0,4gr, 06pcs per box.

### WARNING:

Our data sheets are prepared on the basis of average performance of our tests.

However, our technical advices are given in good faith but without any warranty.

In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs.

We will ensure the continuity of the chemical-physical properties.
