# SHELLAC POLISH

## Shellac solution

### DESCRIPTION:

Borma Wachs Shellac French Polish is formulated following the ancient traditions of the varnishing techniques. Made with natural pure shellac, it's ready for use and amber coloured. Thanks to the valuable natural essences, it allows protective treatments of great brilliancy and softness on all indoor wooden surfaces, in total respect of environment.

### PHYSICAL – CHEMICAL CHARACTERISTICS:

<b>Appearance:</b>	liquid
<b>Color:</b>	amber
<b>Odor:</b>	sweetish
<b>Active substance content:</b>	32%
<b>Solubility:</b>	Shellac 99
<b>Density:</b>	0.819 Kg/l +/- 0.03 (20° C)

### HOW TO USE:

Apply several thin layers of the product on a clean and dry surface using a brush or pad. Due to the high concentration of active substance, on difficult substrates it may be necessary to dilute the product with 10-20% of Borma Shellac 99, in order to ease the application.

Wait at least 1 or 2 hours between coats and make sure that previous coats are completely dry before further applications.

After three applications, the wood will be pleasantly soft and shiny.

### STORAGE:

Store in a cool, well ventilated place, keep the container closed when not in use. Keep away from heat, flames, sparks and other sources of ignition.

### PACKAGING:

The product comes in 500 mL, Lt. 1 and Lt. 5 sized cans.

### WARNING:

Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical properties.
