REV 00 of 20.10.2012

UNIVERSAL NEUTRAL WAX

DESCRIPTION:

A mixture of transparent natural and synthetic wax , particularly indicated for the treatment of Venetian stucco, parquet and marble. The neutral base does not allow the original colour of the treated surface to alter in time and does not turn yellow.

CHEMICAL/PHYSICAL CHARACTERISTICS:

Appearance:	paste	
Colour :	neutral	
Odour :	characteristic	
Solubility in water :	dispersible but not soluble	
Dry residual :	30%	
Ph value :	7.6	
Coverage :	for parquet	500ml. Approx .40mq.
	for Venetian stucco	500ml. Approx. 10mq.
	for limed marble	500ml. Approx. 08mq.

HOW TO USE:

The UNIVERSAL NEUTRAL WAX is easy to apply, just spread the product on the interested surface using a small piece of wool and leave for a few minutes. Polishing , you obtain a rich protective film , that is very beneficial. You can apply the product using a brush.

STORAGE:

Keep the original containers closed tightly in a fresh and well ventilated area, away from flames and sparks.

PACKAGING:

The product comes in tins of 500ml, 01 litre and large cans of 05 litres.

WARNING:

Our technical sheets are compiled on the bases of results of our tests. Nevertheless our technical advice is given in good faith, but without a guarantee. Indeed different supports, conditions, applications, installations, dilutions are integrating parts of the final result and often beyond every control. The user must test the supplied products to verify if it is adaptable for his/her needs.

We can guarantee the continuity of the physical and chemical characteristics.
