WATERSPADIVAN

The portable
Spa Revolution
for swimming pools

At this moment in time...

we are living in a world where the pace of life and the lack of time cause major stress. The demand for therapies to help people to relax is growing all the time...

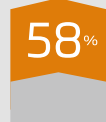

and as a result...

1 out of every 4 people miss work due to stress.

8 out of every 10 adults suffer from back pain.

Health related tourism has increased by 58% in recent years.

Other current Spa solutions on the market...

take up a lot of space and even land, the price of which is increasing all the time. Most call for building work of some kind, which makes it an expensive, unmovable product.

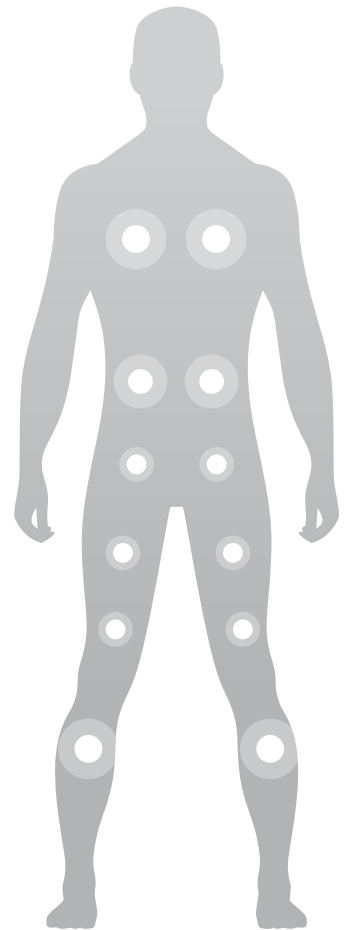

Building work needs to be done

Installing other products is more expensive

They need more space

Back massage

2 double jet rotating water and air nozzles that can be regulated.
2 adjustable water and air jet nozzles.

Armrest

Buttock and thigh massage

6 air shooting nozzles.

Calf massaging

2 adjustable water jet nozzles.

Easy Installation

Its water intake system is already installed in the structure of the product, so the only thing you have to do is put it into the pool and start relaxing.

Do all your relaxing in the smallest possible space

Its compact design means that it can be folded, and take up less space, making the whole experience a lot easier.

Take it with you wherever you want

If you no longer wish to use it, it can be easily taken apart and stored thanks to its back wheels and handle which are specially designed to make transporting it from one place to another easier.
