

Tweezer Soldering Iron

Model: ZD-409
(Ceramic heater)

FEATURES

- ◆ Twin-tube heating, direct contact with the components, no impact on the surrounding components
- ◆ Especially suitable for rework on component-densely mounted circuit board.
- ◆ Energy-saving, high efficiency, suitable for circuit board components, intensive soldering and desoldering.
- ◆ Working together with soldering station, it can remove flake resistor and condenser and SOP elements.
- ◆ Rapid heating up and heat recovery.
- ◆ Ceramic heating element
- ◆ With a metal stand with sponge

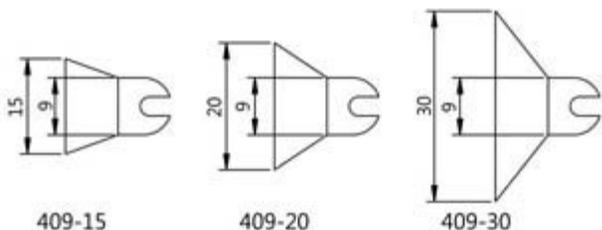

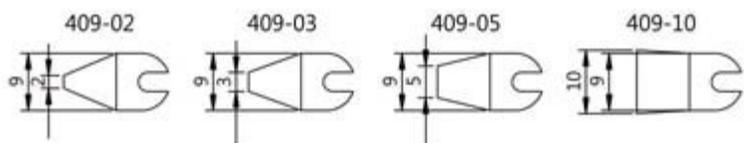

Model: ZD-409

Code	Voltage	Power
88-4092	24V	48W
88-4093	110-130V	48W
88-4094	220-240V	48W

Spare tips

Code	Model	Type
79-8402	TIP 409-02	High quality
79-8403	TIP 409-03	
79-8405	TIP 409-05	
79-8410	TIP 409-10	
79-8415	TIP 409-15	
79-8420	TIP 409-20	
79-8430	TIP 409-30	

ZD-409(Code 88-4092)

Control the soldering temperature when used with below station model ZD-937, ZD-931, ZD-929(A,B,C)
It makes the SMD devices' soldering more easily.
