

SS-600 Fi-Shock® Poultry Charger

Specifications:

- Electric powered AC Energizer: Designed to energize the installed Anti-Roost Devices built into commercial poultry feeding systems.
- Continuous AC output
- Input Voltage: 110-120 VAC, 50-60 Hz, 10 W
- Output Voltage: 980 VAC +/- 20% open circuit voltage
- Low Voltage/Current Energizer is designed for adult chickens and other large birds
- Rugged Engineered Plastic Housing— Electrically Insulated
- 1 year limited warranty

Model SS-600

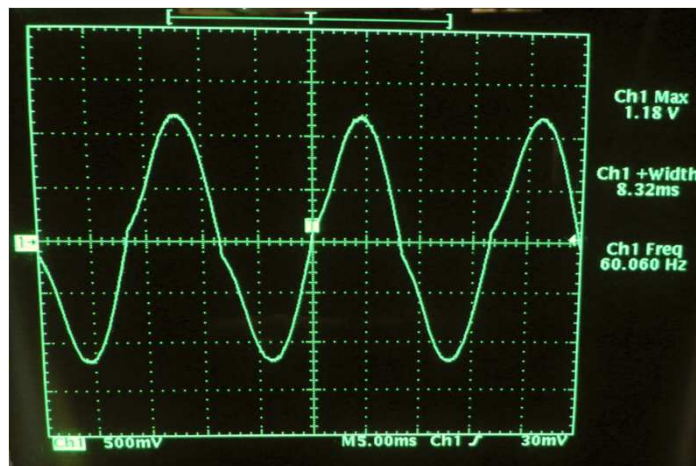

Fi-Shock: Electric Fence Controller
 Input 110-120 VAC ,50-60 Hz 10W Max
 Date: 4/3/13

Model SS-600

Input 120 VAC

Load (Ω)	Peak (V)	Frequency (Hz)
No Load	1180	60
100	2	60
200	4	60
500	8	60
1000	14	60
2000	28	60
5000	68	60
