

Technical Information

PU-503/5 SV

PU-503/5 SV is an excellent release agent for the Polyurethane industry

PU-503/5 SV is a solventbased release agent and ready to use.

PU-503/5 SV gives an excellent matt surface of the produced parts..

PU-503/5 SV reduces build-up on the molds.

Properties:

Colour: clear

Density: 0,75 g/cm³

Shelf life: 12 months

Application Field:

Integral skin,RIM/RRIM/SRIM,Rigid foam,PU-casting,Unit soles

Advantages:

- 1.Easy to use
- 2.Excellent release
- 3.Prevents build up on the molds
- 4.Non greasy, non contaminating coating
- 5.Excellent performance of produced parts

Application:

1. Molds should be clean before using **PU-503/5 SV**. We recommend our cleaner **CL-99**.
2. Apply a thin coat of **PU-503/5 SV**.
3. Wait until the solvent is evaporated.
4. Start production

Further Information:

Product technical information and data is based on the best information available and does not constitute or imply a warranty or patent infringement of any kind. The user is responsible for testing product suitability prior to use in production.
