COMMERCIAL & DOMESTIC RO

Pallas[®]

COMMERCIAL & DOMESTIC RO

Domestic & Commercial RO's improve the water quality by removing minerals such as sodium, sulphate, chlorine, sediment and bacteria. Better water not only influences your devices, but also the taste of your coffee, your tea, your ice. The domestic & commercial solutions provided by the Pollet Water Group improve your day-to-day life and ease your comfort. Our new Pallas RO range is manufactured inhouse in compliance with the industry's standard and norms.

ABOUT POLLET WATER GROUP

Water is life. Water is growth. Over four decades, Pollet Water Group has been thinking water. It's our mission to improve the quality of life, the comfort of doing business and the efficiency of industrial processes through a network of specialized water treatment companies. Our solutions protect your home and business against costly replacements due to the damaging effects of water. Our technologies make it possible to turn seawater into drinking water. Our know-how even contributes to achieving the best possible quality of life for dialysis patients. With headquarters in Waregem (Belgium), Pollet Water Group supplies both components and complete solutions throughout Europe, Africa and the Middle East. Together with our partners and customers, we are committed to make water count.

Our offer

Water treatment components & systems

- Domestic, commercial, horeca, industrial and medical solutions
- Know-how on tap water, well water, sea water, drinking water, cooling water, brackish water, river water, ...
- Techniques in water treatment such as softening, filtration, oxidation, reverse osmosis, sea water desalination, water reuse, disinfection, process water treatment, ...

Join us on our mission.

Make water count.
