# STEEL WOOL '0000'

### DESCRIPTION:

The STEEL WOOL '0000' is a product for industry, for craftsmen and for the simple home maintenance of wood. Composed of extra-thin filaments, controlled by a computerized system, the steel wool is perfect for application of waxes or oils, with a resulting polishing of the surface. Not greasy.

### CHEMICAL/PHYSICAL CHARACTERISTICS:

<b>Form:</b>	roll of selected wires
<b>Color:</b>	metallic grey
<b>Odor:</b>	odorless

### PACKAGING:

The product is available in packs of 1 kg and 6 kg

### STORAGE:

Store in a cool, well ventilated place, keeping the containers closed when not in use. Keep away from heat, flames, sparks and other sources of ignition. Avoid the accumulation of electrostatic charges.
