Robotic cleaner Saphyr HJ2042

CE ETL c us 3104589 ROHS SAA
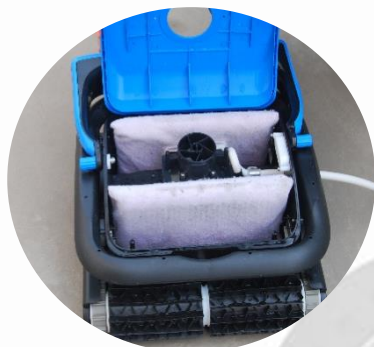

With highlighted feature of robustness and high efficiency, the Raptor pool robot cleans up to pool size of14x6m. **It cleans, filters the pool floor and climbs up to the waterline.** It's compatible with all types of pools and coatings (liner, polyester shell, painted concrete, etc...). **Equipped with two large filter bags**, it's able to filter up to 200m2 area.

Auto start program: once a day, once every 3 days, once every 7 days for great tranquility and efficiency use.

Another innovative application is to equip this model with a **shining LED bar around the robot body**, by which the robot will illuminate your pool in the night and offer you a cozy and warm feeling..

Caddy optional

Main features

- Dual purpose robot: permanent maintenance + weekly use
- Programmable up to 7 days in a row
- 3 pairs of filter gloves up to 50 microns
- Flotation belt around the robot to facilitate the release of water from the robot
- - Energy saving, thanks to these different programming cycles and its low-voltage motor

Specification

Input voltage: 220V/240V
Output voltage: DC20V
Power : 200W
Cable length : 18m
Operating cycle: 1/1h30/2h
Cleaning surface: 200㎡
Filter capability : 50µm
Filter capacity : 20 m³/h
Moving speed : 12.5m/min
IP grade : Cleaner IPX8,
　　　　　Power supply unit IPX5

Loading information

Package size:
76 x 54 x 31.5cm (without caddy)
79 x 56 x 48cm (with caddy)
