

xFUME VAC PRO

Powerful extraction system for up to four robot welding torches.

**As a system:
Perfect in a team
with ABIROB®
welding torches.**

The mobile extraction unit xFUME VAC PRO is suitable for 24-hour continuous operation and ideally designed for connection to ABICOR BINZEL robot welding torches.

- Highly efficient thanks to the high-vacuum technology with more than 26,000 PA negative pressure
- Up to four connections for extraction hoses
- Up to 30 m extraction hoses for easy connection to several welding robots
- Durable, low-maintenance side channel compressor
- Automatic filter cleaning by compressed air impulse
- Automatic start/stop via external control for reduced operating costs and less wear and tear
- Compact and robust design with castors for mobile use and easy transport
