

DeCAL 5045

DeCAL 5045 is an excellent solvent free foam control agent for aqueous systems. It is used very successfully in emulsion paints, paper coatings and adhesives

1. Typical Properties.

Appearance:	Off White Emulsion
Ionic activity:	Nonionic
Water Miscibility:	Not Miscible
Fluidity:	<1500mPa.s

2. Application:

DeCAL 5045 normally used as supplied.

DeCAL 5045 is effective over a wide range of pH's and temperatures controlling foam in emulsion paints and other aqueous systems.

DeCAL 5045 is a universal product and as such recommended addition levels can vary and should be determined by the end user. Typical addition levels are in the range of 0.1-0.5% in total as supplied.

3. Packaging:

DeCAL 5045 is supplied in 200Kg drums or 1000Kg IBC's.

4. Stability:

6 months minimum shelf life when stored at normal temperature. 5°C – 30°C. during storage some phasing may occur. Remixing will ensure the product is suitable for use.

We hope this information will be of value and if necessary we will be glad to offer additional technical advice. Please note that all our information is given in good faith, we can assume no responsibility for any liability incurred. Data and results should be confirmed by the Buyer by testing the product under its intended conditions of use.
