WAVE PHANTOM 2

OUTPLAY THEM ALL

The superbly aggressive Wave Phantom provides players with the means to make a huge dent in the opponents' defence. Airmesh upper and synthetic overlays supply an incredibly stable and breathable frame, while Mizuno Wave technology yields sturdy support for lateral movements and ultimate cushioning in the midfoot, so you can outplay and outmanoeuvre any player that comes your way.

BENEFITS

- Mizuno Wave technology offers specific midfoot and lateral support with unrivalled cushioning
- Air mesh and synthetic overlays provide great stability and a high level of comfort and breathability
- Molded sockliner delivers enhanced comfort and stability and snug comfort from the inside out.

GLOSSARY

TECHNICAL GLOSSARY

WAVE TECHNOLOGY

	<p>Parallel Wave Wave technology which uniformly disperses shock throughout the sole, providing excellent cushioning and enhanced stability.</p>		<p>Fan-shaped Wave Wave technology which features various Wave heights, delivering excellent cushioning and stability.</p>
	<p>Infinity Wave Wave technology with a more visible and effective construction. Two parallel plates that sit together with soft cushioning pillars in-between to provide unrivalled cushioning and improved durability by absorbing and dispersing the impact at foot strike.</p>		<p>Double Fan-shaped Wave Wave technology that gives the highest levels of support combined with excellent cushioning.</p>

ALL SPORTS

	<p>Inspired by nature, Wave is a unique midsole technology that provides both cushioning and stability. Wave's unique shape absorbs and disperses the impact at foot strike, which results in a smoother, more cushioned feel on every step.</p>		<p>ap+, a lightweight midsole compound offering rebound and cushion durability, providing a high level of comfort.</p>
	<p>The DynamotionFit system uses highly advanced motion capture and biomechanics technology. Mizuno has developed a design blueprint to engineer shoes that work with your foot throughout the gait cycle.</p>	<p>AIRmesh</p>	<p>Breathable and cool, AIRmesh allows each running shoe from Mizuno to maintain a high standard of breathability and comfort of the upper.</p>
	<p>Cool and Dry. Mizuno Intercool solves the problem of heat and humidity build-up in a running shoe. It does this by incorporating a full-length ventilation system in the sole of the shoe that removes heat and humidity from the foot through a system of ventilation channels.</p>	<p>Removable INSOCK</p>	<p>Removable insock for comfort and cushioning.</p>
<p>SR touch</p>	<p>An advanced lightweight cushioning material that absorbs shocks and keeps the transition smooth and fast due to its quick rebound properties.</p>	<p>Premium INSOCK</p>	<p>A high-grade removable insock for comfort and cushioning.</p>
<p>MIZUNO COB</p>	<p>MIZUNO COB (center of balance) is a midsole structure with multiple pods that activate body awareness to increase balance.</p>		

TECHNICAL GLOSSARY

RUNNING TECHNOLOGIES

	<p>The new MIZUNO upper technology holds the foot stable during the run for a secure fit and an unrivalled comfort. A soft fabric mesh stretches and wraps around the foot to create the most comfortable ride.</p>		<p>Pebax® Powered Wave Plate for lightweight energy return</p>
	<p>Durability and Traction. X-10 is an extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and gives more traction at the heel strike.</p>		<p>The Wave Plate is constructed with a bio-sourced Pebax Rnew® plate. This provides extremely lightweight support and energy return, empowering athletes with every step.</p>
	<p>XtaRide, Mizuno's technical trail concept featuring X lugs and Xta groove, leads to trail shoes that adapt to their surroundings and work in perfect harmony with the body.</p>		<p>An evolutionary lightweight midsole that delivers stress-free cushioned rides with high rebounds. It gives an energised, euphoric and super-comfortable run.</p>
	<p>G3, an advanced performance outsole component that enhances traction where needed most and reduces weight.</p>	<p>ESS Rock Plate</p>	<p>An extra solid sheet rock-plate in the forefoot which provides superb protection against stones and rock.</p>
	<p>A unique midsole compound providing high comfort and performance, while being extremely lightweight.</p>		<p>Waterproof, breathable fabric membrane upper technology.</p>
	<p>An original rubber compound developed by Michelin that provides more grip and comfort.</p>	<p>Blown Rubber</p>	<p>The pressure absorbing blown rubber outsole optimizes pressure distribution throughout the forefoot.</p>
	<p>An engineered approach to minimise the rapid acceleration and deceleration of the foot during transition, creating the smoothest ride possible.</p>	<p>XPJP</p>	<p>A completely new type of midsole compound that delivers cushioning, rebound and durability at a high level. The exquisite harmony of the super soft and advanced cushioning with high energy return makes you feel as if you are floating on water.</p>
<p>WAVEKNIT</p>	<p>A knit construction inspired by our Mizuno Wave technology. It's dynamic stretch and hold abilities provides a sock-like fit that feels natural every step.</p>	<p>XtaGrip</p>	<p>A outsole construction that provides superior grip on various surfaces thanks to it's adaptive abilities. Allows for high traction on soft surfaces and high friction on firm surfaces.</p>
	<p>A lightweight midsole compound providing high level cushioning and rebound for energy efficient runs.</p>		

TECHNICAL GLOSSARY

FOOTBALL & RUGBY TECHNOLOGIES

	<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>		<p>Grippy insock material that stops the foot from sliding inside the shoe.</p>
	<p>Upper delivers a high level of softness and durability with a structured fit.</p>		<p>R-Fiber mesh controls the upper stretch and securely holds the foot during acceleration and turns.</p>
	<p>A unique midsole compound providing superb comfort and performance, while being extremely lightweight.</p>		<p>Highest kangaroo leather quality for premium comfort fit and natural ball touch.</p>
	<p>It is a revolutionary concept, with an integrated memory foam construction which controls three key performance characteristics: Fit, Stability and Touch.</p>		

RACKET SPORTS TECHNOLOGIES

	<p>A unique upper providing the highest level of softness and durability, while maintaining breathability.</p>		<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>
	<p>An exceedingly lightweight midsole material with excellent comfort and resilience properties.</p>		<p>Durability and Traction. X10 provides extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and provides more traction at the heel strike.</p>
	<p>Dynamotion Groove - an innovatively constructed outsole using specifically designed flex grooves to improve stability and on court agility.</p>		<p>The BOA Fit System contains three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. It is engineered to optimize fit and provide precision, adaptability, and control.</p>

TECHNICAL GLOSSARY

INDOOR TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		An exceedingly lightweight midsole material with excellent comfort and resilience properties.
	A performance outsole component that enhances traction where needed most.		Specifically designed flex grooves in the outsole to improve stability and on court agility.
	Dura Shield protects your toes and increases the product durability.		Super soft and durable synthetic collar lining insert which adds comfort and durability when using ankle braces.
	A shock-absorbing cushioning compound.		

TECHNICAL GLOSSARY

APPAREL TECHNOLOGIES

	<p>Mizuno DryLite technology draws excess moisture away from the body, creating a comfortable and dry microclimate for best performance.</p>		<p>Mizuno FreshPlus technology adds an anti-bacterial and deodorising function to your garment, creating a fresher and odour reducing product.</p>
	<p>Mizuno Bodymapping technology provides enhanced air circulation inside the garment, keeping the body cool and dry.</p>		<p>Mizuno DynamotionFit technology is based on anatomical research to create patterns that give improved garment fit and full freedom of movement.</p>
	<p>Mizuno's BIOGEAR is based on in-depth scientific research into the human exercise physiology and biomechanics. It helps to maintain body balance, improve performance and reduce the fatigue of muscles and joints during sport by controlling stretch, pressure and shape.</p>		<p>CoolTouch technology provides a soft feeling and leads to extremely quick drying.</p>
	<p>Mizuno ImpermaLite technology provides a performance blend of water and wind protection combined with superior breathability.</p>		<p>BlindStitch construction provides flat seams for anti-abrasion and enhanced comfort.</p>
	<p>NightLite, with its reflective material, provides superior retro reflection for low light running.</p>		<p>Breath Thermo is an extremely innovative thermal fabric yarn. It captures escaping body heat and, through a patented reaction in the yarn, generates heat-returning warmth to the body.</p>
	<p>Mizuno Warmalite technology recycles body heat, creating an insulating warm layer between body and garment.</p>		<p>SolarCut technology reflects sunlight ultraviolet waves by reducing the light transmission and thus keeping the body cool.</p>
	<p>Saving water with pure performance. Waterless dyeing process, without added chemicals, that saves up to 25 liters of fresh water per tee shirt dyed.</p>
