# STRONG WOOD STRIPPER

## Water soluble wood stripping gel

### DESCRIPTION:

Borma STRONG WOOD STRIPPER, is a strong gel paint remover, non-corrosive, methylene-chloride, toluene and aromatic free, specially formulated to remove any old paint from wood. Without soda, it doesn't change the natural tone of wood grain. Odorless, it is also water soluble. Thanks to its characteristics is free from any commercial restriction.

### PHYSICAL – CHEMICAL CHARACTERISTICS:

<b>Appearance:</b>	gel
<b>Colour:</b>	colourless
<b>Odour:</b>	characteristic
<b>pH:</b>	6.8 ± 0.1
<b>Temperature of Application:</b>	+5/+35 °C

### METHOD OF USAGE:

The Strong Wood Stripper can be directly applied with the aid of a brush on each wooden surface to be restored.

Prefer abundant applications, with a quite high thickness of the layer. Take care of the room temperature: too rapid evaporation of the solvents decreases efficiency of the product.

After application, wait 15/30 minutes then remove the peeled-off paint/varnish with steel wool or a spatula. If necessary, repeat the operation, remembering to clean the surface with alcohol or water from any residual product at the end of work.

### PACKAGE:

The product comes in 750ml, 4 Lt, 20 Lt cans.

### STORAGE:

Store in a cool, well-ventilated place, keep container closed when not in use. Keep away from sources of heat, naked flames and sparks and other sources of ignition. Protect from frost. Shelf life of the product is 12 months.

### WARNING:

Our data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical characteristics.
