+ 1 HORSEPOWER
ON ALL AIRLESS MODELS

AIRLESS HYDRAULIC PAINT SPRAYERS

GEROMAC PE airless hydraulic electric paint sprayers are the ideal airless unit for medium to large size professional painters. These heavy duty hydraulic sprayers can spray the majority of all interior and exterior coatings due to a 3" pump stroke and large material inlet, ensuring accurate pumping. PE airless paint sprayers are ideal for commercial and residential paint jobs, renovation and property maintenance.

Take advantage of GEROMAC slow stroke pumps and hydraulic operation. Compare the power, material flow and productivity of a GEROMAC hydraulic airless sprayer to the existing markets offering and get more out of your professional sprayer and investment.

You deserve a size up unit for your investment!!

AIRLESS HYDRAULIC TEXTURE SPRAYERS

GEROMAC TG hydraulic texture airless sprayers have been designed for contractors most demanding jobs. Equipped with a 3" long stroke pump and extra large material inlet valve the GEROMAC's hydraulic texture sprayers can spray all texture, stucco paste, ready mixed plaster and high viscosity coating materials. Choose between a direct immerse pump or connect a suction hose, depending on the coating application.

GET MORE productivity with a hydraulic airless paint sprayer; don't settle for a weak paint unit when you can gain more power and durability with a GEROMAC airless sprayer. Compare the power source, the material flow and the investment that you intend to make. Offer your business a strong and powerful everyday partner.
