

BDC-122HC DUST COLLECTOR

H-CLASS CERTIFIED DUST COLLECTOR

The Blastrac BDC-122HC is a heavy duty dust collection system. This machine is completely H-class certified according to European standard EN 60335-2-69 Annex AA. These high safety standards will protect the environment and operators against hazardous dust and micro-organisms.

It comes equipped as standard with both a M-class star filter and a H14 Hepa filter. In addition, it is equipped with a Longopac bagging system, which is easy to mount and handle. Thanks to this system, the operators have no more contact with the dust in their direct vicinity.

The filters are easy to clean by using the manual hand shaker on top of the dust collector. In addition, the BDC-122HC is equipped with a vacuum gauge in order to know when the filter is clogging.

- 330 m³/h | 211 hPa | 2 Independent Motors
- 53 kg
- 660 mm | 600 mm | 1.275 mm

H-CLASS CERTIFIED DUST COLLECTOR

The BDC-122HC industrial dust collector is completely H-class certified. It makes it perfect to deal with hazardous materials such as asbestos or silica dust.

LONGOPAC SYSTEM

Our Longopac system allows you to collect the dust in easy to handle packages of 25 kg without dispersing dust.

MANUAL SHAKER ON TOP

The filters are easy to clean by using the manual shaker on top.

VACUUM GAUGE

The BDC-122HC is equipped with a vacuum gauge in order to know when the filter is clogging.

The 2 motors are independent (1 button for each motor).

FILTERS

The BDC-122HC is equipped with both a new generation M-class filter with glued seams and a H14 Hepa filter.

EXTRA FEATURES

The BDC-122M-LP has a basket for tooling & an adjustable cable holder (3 positions).

In addition, there is an useful tube on the frame for the tiewraps and scissor / knife.
