

## H 16 HP

True ergonomic portability

## H 16 HP

**H-Line Crimpers**  
the solution for the user.

In the H-Line crimper design and the operator is in focus. Ergonomic work positions, simple and safe operation are key features. Together with the purely technical advantages the machines are truly unique.

### **ADVANTAGES:**

- **Portable.**
- **Fast and easy operation.**
- **Ergonomic operation.**
- **Easy storage of the dies.**

In our smallest on site crimper we have rearranged the press-concept from zero to create ergonomic portability and use.

Carried like a briefcase the weight of the crimper stays close to the leg and saves the back of the operator.

During operation the handle of the handpump is oriented in a 90 degree angle from the opening of the head creating a correct ergonomic work position.

Furthermore the handle is bent in the end to create a natural grip for the operator.

Swaging dies are kept orderly in an integrated box inside the press. No more messy mixing of the dies.

The machine is all about the operator !!

*Easy to carry with you*

*Ergonomic work positioning.*

#### DIMENSIONS

Depth/ Width/ Height .....156x500x330 mm

#### DESIGNATION:

H 16 HP .....9028-00-00

#### Dies:

	<b>PART NUMBER:</b>
H 16-10.....	9070-16-10
H 16-12.....	9070-16-12
H 16-14.....	9070-16-14
H 16-16.....	9070-16-16
H 16-19.....	9070-16-19
H 16-23.....	9070-16-23
H 16-27.....	9070-16-27
H 16-31.....	9070-16-31

#### TECHNICAL DATA

Crimping range in mm .....	10 - 45 mm
Crimping range in inches .....	0,39 - 1,77
Crimping force in metric tons.....	95,5
Crimping force in kN .....	955
Maximum hose size in inches .....	1"
Die Set.....	H 16
Maximum travel of dies in mm.....	20 mm
Master die Diam. /Lenght in mm.....	39 / 64
Master die Diam. /Lenght in inches.....	1,54 / 2,52
Machine control .....	Manual
Motor size in kW.....	700 bar handpump
Motor size in HP.....	700 bar handpump
Colour.....	Black / Orange
