Stucco Decorativo ad Effetto Velluto

Il Fascino del Velluto

CARAVAGGIO unisce alla preziosità dell'effetto dello stucco veneziano, la originale eleganza, la morbidezza tattile, e la rifrazione di luce caratteristica degli antichi tessuti murali; consente di ottenere effetti fino adesso non ottenibili con i tradizionali sistemi vernicianti, sfrutta l'estro e la capacità del decoratore, che ha la possibilità di ottenere in ogni applicazione effetti diversi e originali adattabili in ogni tipo di arredamento.

Velvet Effect Decorative “Stucco”

Velvet’s Appeal

Caravaggio combines the precious features of the Venetian stuccoes with the original elegance, softness and light effects typical of the ancient wall fabrics, used in the Renaissance.

Caravaggio allows to obtain some extraordinary results (never seen before with other traditional paints) by exploiting the decorative abilities and creativity of the painter who can create original nuances with every different application, suitable for all kinds of environments.

Эффект декоративной бархатной штукатурки

Caravaggio сочетает в себе изысканные характеристики венецианских штукатурок с оригинальной элегантностью, мягкостью, и световыми эффектами, свойственными античным тканым стенам, использовавшимся в эпоху Ренессанса.

CARAVAGGIO позволяет получить совершенно необычные результаты за счет использования декоративных свойств материала и креативности мастера – декоратора, который может создавать непохожие эффекты с каждым новым нанесением, применимым для любого типа интерьера.
