

Vehicular Charger Mounting Adapter

VCM-2, VCM-3 & VCM-4

The **VCM-2** is a mobile mounting bracket designed to match the Charger Stand for **VAC-300 (CD-34)** and **VAC-920 (CD-31)**, the **VCM-3** is a mobile mounting bracket designed to match the Charger Stand for **VAC-20 (CD-47)**, and the **VCM-4** is a mobile mounting bracket designed to match the Charger Stand for **VAC-450 (CD-49)**.

INSTALLATION

1. Using the Bracket "A" as a template, lay out the positions for the mounting holes for the bracket, being careful to provide sufficient clearance for the **VCM-2/-3/-4**. Because each mounting situation is different, mounting hardware is not supplied with this kit; drill holes compatible with the mounting hardware you choose. We recommend hardware of approximately 4.8 mm (3/16") diameter.
2. Secure the Bracket "A" with your screws, washers and nuts (Figure 1).
3. Secure the Charger Stand onto the Bracket "B" of the **VCM-2/-3/-4** using the supplied screws and washers (Figure 2).
4. Insert the DC plug from the DC Adapter into the DC jack on the bottom side of the Charger Stand, then mount the Bracket "B" to Bracket "A" using the supplied bolts and washers (Figure 3).
5. Route and secure the DC Adapter cable, then plug the DC Adapter into the vehicle's cigarette lighter plug.

- ☐ You may secure the Charger Stand to the vehicle directly with the Bracket "B" (Figure 4).
- ☐ The angle of the Charger Stand may be adjusted to whatever is most convenient and accessible.

Caution !

When using a mobile antenna, do not attempt to charge the radio. Always disconnect the antenna first.
