

Active Infrared Door Sensor

MIRAGE

Recess Mount

Optex Mirage is designed to be installed in the header of the door operator or as a built in ceiling mount sensor.

It offers you both safety and activation on all types of automatic doors.

It combines easy adjustable settings, providing maximum safety in a wide array of applications.

Elegant solution for design conscious applications The Optex Mirage is designed for installation in the header of the door operator.

Due to its recessed mounted design and the 2 rows of presence detection, this sensor is an elegant and safe solution for applications where design of appearance is very much emphasized.

One Push Opening Body Structure
