MIZUNO GLOBAL SUSTAINABILITY

MIZUNO CREW 21

VISION

MIZUNO CREW 21

We believe in a sustainable future in which all people live equally on a safe and healthy planet. While respecting the dignity of all people, we will continue to nurture a beneficial future, where sports can be enjoyed anytime, anywhere and without reservation.

MISSION

MIZUNO CREW 21

To protect our planet earth, the stage on which we play sports. By integrating innovations in our products and services, based on science, for the benefit of society and inspired by nature, we endeavor to ensure a future in which people cultivate a healthy mind and body through sports.

PURPOSE

MIZUNO CREW 21

MIZUNO CREW 21 is our global sustainability commitment to protect our planet for future generations.

"IF THE ENVIRONMENT IS NOT PROTECTED THERE IS NO SOCIETY AND NO ECONOMY" SO COMBATING CLIMATE CHANGE IS CRITICAL FOR EVERY LIVING ENTITY ON THE PLANET.

IF WE DO NOT STOP THE WORLD WARMING IT WILL HAVE A DEVASTATING IMPACT ON ALL LIFE. SO...

ON MAY 12, 2021, OUR PRESIDENT, AKITO MIZUNO ANNOUNCED THAT IT'S OUR AIM TO BE...

CARBON NEUTRAL BY 2050

THE NEXT 100 YEARS

We've broken down the SGD's (the United Nations' Sustainable Development Goals) into 3 pillars to give further focus and tackle the areas we think we can make the most impact:

HEALTH

To contribute to the wellness, mental and physical health of people through sport.

Sport has great power not only to maintain physical and mental health, but also to create communication across countries and generations and to bring out the potential of people in all regions.

Mizuno supports more people to access sports and contributes to the realization of a richer and more sustainable society in which each person can shine.

HUMANITY

To contribute to the realization of a future in which all people respect, understand and accept each other.

We believe in a sustainable future in which all people live equally on a safe and healthy planet.

Respecting the diversity of all people, we provide better sporting equipment, places and opportunities for playing sports to all, regardless of nationality, race, gender, age and/or physical ability, through our sincere business activities.

ENVIRONMENT

To actively contribute to the conservation of the global environment, reducing the impact of climate change, in all business activities and actions of all individuals.

As we provide products and services that embody the diverse values of sports, we shall protect the global environment, where people around the world can live with peace of mind and most of all, be able to play sports in a safe and healthy setting.

WAVE MUJIN 8

CONQUER THE TOUGHEST TRAILS

Feel comfortable running through the toughest trail environments with the Wave Mujin 8, designed to keep you safe during your trail runs. It features MIZUNO ENERGY, throughout the entire bottom midsole, for amazing cushioning and energy return, as well as MIZUNO WAVE for great stability.

SPECIFICATIONS

WEIGHT	360g (M) / 300g (W)
SIZES	UK6-12,13 (M) / UK4-8 (W)
STACK MM	28,5/38,5

TARGET CONSUMER For trail runners who run on tough environments such as rocks rather than gravel paths and who enjoy taking on long-distance trails.

27 - M	Tapestry/Misty Blue /Neo Lime	01 - W	Troposphere/White /Neo Lime
18 - M	Moroccan Blue/Algiers Blue/Grenadine	32 - W	Kayaking/Lagoon /Pink Peacock

BENEFITS

- MIZUNO ENERGY is used throughout the entire bottom midsole to provide excellent cushioning and energy return.
- MIZUNO WAVE boosts stability without sacrificing cushioning. Because it is equipped at the front and back, it creates a smoother feeling when running on mountain trails.

TECHNICAL
GLOSSARY

TECHNICAL GLOSSARY

WAVE TECHNOLOGY

	<p>Parallel Wave Wave technology which uniformly disperses shock throughout the sole, providing excellent cushioning and enhanced stability.</p>		<p>Fan-shaped Wave Wave technology which features various Wave heights, delivering excellent cushioning and stability.</p>
	<p>Infinity Wave Wave technology with a more visible and effective construction. Two parallel plates that sit together with soft cushioning pillars in-between to provide unrivalled cushioning and improved durability by absorbing and dispersing the impact at foot strike.</p>		<p>Double Fan-shaped Wave Wave technology that gives the highest levels of support combined with excellent cushioning.</p>

ALL SPORTS

	<p>Inspired by nature, Wave is a unique midsole technology that provides both cushioning and stability. Wave's unique shape absorbs and disperses the impact at foot strike, which results in a smoother, more cushioned feel on every step.</p>		<p>ap+, a lightweight midsole compound offering rebound and cushion durability, providing a high level of comfort.</p>
	<p>The DynamotionFit system uses highly advanced motion capture and biomechanics technology. Mizuno has developed a design blueprint to engineer shoes that work with your foot throughout the gait cycle.</p>	<p>AIRmesh</p>	<p>Breathable and cool, AIRmesh allows each running shoe from Mizuno to maintain a high standard of breathability and comfort of the upper.</p>
	<p>Cool and Dry. Mizuno Intercool solves the problem of heat and humidity build-up in a running shoe. It does this by incorporating a full-length ventilation system in the sole of the shoe that removes heat and humidity from the foot through a system of ventilation channels.</p>	<p>Removable INSOCK</p>	<p>Removable insock for comfort and cushioning.</p>
	<p>An advanced lightweight cushioning material that absorbs shocks and keeps the transition smooth and fast due to its quick rebound properties.</p>	<p>Premium INSOCK</p>	<p>A high-grade removable insock for comfort and cushioning.</p>
<p>MIZUNO COB</p>	<p>MIZUNO COB (center of balance) is a midsole structure with multiple pods that activate body awareness to increase balance.</p>		<p>Provides a well cushioned landing with amazing energy return. This midsole material surpasses all expectations of comfort set by previous materials.</p>
	<p>Redefine what Energy return should feel like with this super soft and bouncy midsole material created by Mizuno for our top line products.</p>		

TECHNICAL GLOSSARY

RUNNING TECHNOLOGIES

	<p>The new MIZUNO upper technology holds the foot stable during the run for a secure fit and an unrivalled comfort. A soft fabric mesh stretches and wraps around the foot to create the most comfortable ride.</p>		<p>Pebax® Powered Wave Plate for lightweight energy return</p>
	<p>Durability and Traction. X-10 is an extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and gives more traction at the heel strike.</p>		<p>The Wave Plate is constructed with a bio-sourced Pebax Rnew® plate. This provides extremely lightweight support and energy return, empowering athletes with every step.</p>
	<p>XtaRide, Mizuno's technical trail concept featuring X lugs and Xta groove, leads to trail shoes that adapt to their surroundings and work in perfect harmony with the body.</p>		<p>An evolutionary lightweight midsole that delivers stress-free cushioned rides with high rebounds. It gives an energised, euphoric and super-comfortable run.</p>
	<p>G3, an advanced performance outsole component that enhances traction where needed most and reduces weight.</p>	<p>ESS Rock Plate</p>	<p>An extra solid sheet rock-plate in the forefoot which provides superb protection against stones and rock.</p>
	<p>A unique midsole compound providing high comfort and performance, while being extremely lightweight.</p>		<p>Waterproof, breathable fabric membrane upper technology.</p>
	<p>An original rubber compound developed by Michelin that provides more grip and comfort.</p>	<p>Blown Rubber</p>	<p>The pressure absorbing blown rubber outsole optimizes pressure distribution throughout the forefoot.</p>
	<p>An engineered approach to minimise the rapid acceleration and deceleration of the foot during transition, creating the smoothest ride possible.</p>	<p>XPJP</p>	<p>A completely new type of midsole compound that delivers cushioning, rebound and durability at a high level. The exquisite harmony of the super soft and advanced cushioning with high energy return makes you feel as if you are floating on water.</p>
<p>WAVEKNIT</p>	<p>A knit construction inspired by our Mizuno Wave technology. It's dynamic stretch and hold abilities provides a sock-like fit that feels natural every step.</p>	<p>XtaGrip</p>	<p>A outsole construction that provides superior grip on various surfaces thanks to it's adaptive abilities. Allows for high traction on soft surfaces and high friction on firm surfaces.</p>
	<p>A lightweight midsole compound providing high level cushioning and rebound for energy efficient runs.</p>		

TECHNICAL GLOSSARY

FOOTBALL & RUGBY TECHNOLOGIES

	<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>		<p>Grippy insock material that stops the foot from sliding inside the shoe.</p>
	<p>Upper delivers a high level of softness and durability with a structured fit.</p>		<p>R-Fiber mesh controls the upper stretch and securely holds the foot during acceleration and turns.</p>
	<p>A unique midsole compound providing superb comfort and performance, while being extremely lightweight.</p>		<p>Highest kangaroo leather quality for premium comfort fit and natural ball touch.</p>
	<p>It is a revolutionary concept, with an integrated memory foam construction which controls three key performance characteristics: Fit, Stability and Touch.</p>		

RACKET SPORTS TECHNOLOGIES

	<p>A unique upper providing the highest level of softness and durability, while maintaining breathability.</p>		<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>
	<p>An exceedingly lightweight midsole material with excellent comfort and resilience properties.</p>		<p>Durability and Traction. X10 provides extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and provides more traction at the heel strike.</p>
	<p>Dynamotion Groove - an innovatively constructed outsole using specifically designed flex grooves to improve stability and on court agility.</p>		<p>The BOA Fit System contains three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. It is engineered to optimize fit and provide precision, adaptability, and control.</p>

TECHNICAL GLOSSARY

INDOOR TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		An exceedingly lightweight midsole material with excellent comfort and resilience properties.
	A performance outsole component that enhances traction where needed most.		Specifically designed flex grooves in the outsole to improve stability and on court agility.
	Dura Shield protects your toes and increases the product durability.		Super soft and durable synthetic collar lining insert which adds comfort and durability when using ankle braces.
	A shock-absorbing cushioning compound.		

TECHNICAL GLOSSARY

APPAREL TECHNOLOGIES

	<p>Mizuno DryLite technology draws excess moisture away from the body, creating a comfortable and dry microclimate for best performance.</p>		<p>Mizuno FreshPlus technology adds an anti-bacterial and deodorising function to your garment, creating a fresher and odour reducing product.</p>
	<p>Mizuno Bodymapping technology provides enhanced air circulation inside the garment, keeping the body cool and dry.</p>		<p>Mizuno DynamotionFit technology is based on anatomical research to create patterns that give improved garment fit and full freedom of movement.</p>
	<p>Mizuno's BIOGEAR is based on in-depth scientific research into the human exercise physiology and biomechanics. It helps to maintain body balance, improve performance and reduce the fatigue of muscles and joints during sport by controlling stretch, pressure and shape.</p>		<p>CoolTouch technology provides a soft feeling and leads to extremely quick drying.</p>
	<p>Mizuno ImpermaLite technology provides a performance blend of water and wind protection combined with superior breathability.</p>		<p>BlindStitch construction provides flat seams for anti-abrasion and enhanced comfort.</p>
	<p>NightLite, with its reflective material, provides superior retro reflection for low light running.</p>		<p>Breath Thermo is an extremely innovative thermal fabric yarn. It captures escaping body heat and, through a patented reaction in the yarn, generates heat-returning warmth to the body.</p>
	<p>Mizuno Warmalite technology recycles body heat, creating an insulating warm layer between body and garment.</p>		<p>SolarCut technology reflects sunlight ultraviolet waves by reducing the light transmission and thus keeping the body cool.</p>
	<p>Saving water with pure performance. Waterless dyeing process, without added chemicals, that saves up to 25 liters of fresh water per tee shirt dyed.</p>		<p>Keeps high breathability in case of sweaty. Dry material with high heat release. Keeps high breathability in case of sweaty. Dry material with high heat release.</p>

Our **BodyFit** strategically provides support to targeted muscle groups.

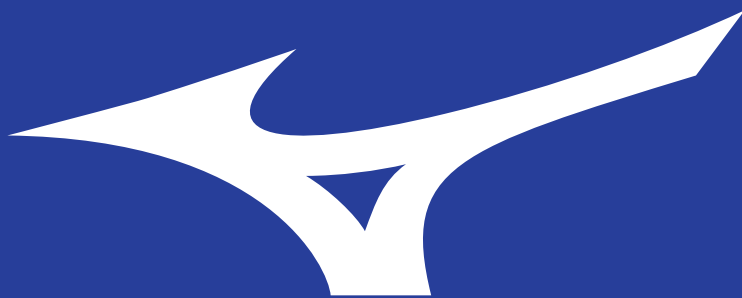

Our **SlimFit** apparel conforms to the shape of the body, without restricting movement.

Our **StandardFit** apparel aligns with the contour of your body while still allowing for ease of mobility.

Our **RelaxFit** follows your natural shape yet leaves room in all the right places for freedom of movement.

FOR EVER

A photograph of three runners in athletic wear (a man in a neon green shirt, a woman in a light purple tank top, and a man in a blue shirt) running on a rooftop. The sky is bright blue with scattered white clouds. The text 'TRY RUN' is overlaid in a large, white, stylized font across the middle of the image.
