Time and online icon

(Display running time when not connected to the Internet, display calendar, when connected to the Internet)

Temperature display

(display the internal temperature when not connected to the Internet, and display the network temperature when connected)

Description:

100% Brand New and High Quality !

APP:tuya/smart life

High quality chip for accurate current measurement, providing your connected household appliances real-time view of electricity consumption. No more need to monitor via the meter itself and simply control the whole devices via Smart Life/Tuya App.

Compatible with Amazon Alexa and Google Home for easy voice control, providing your smart life with much more convenience. Freely control connected appliances via voice when your hands are not free.

Wireless Remote Control: Conveniently control your connected devices with the free mobile "Smart Life" phone App no matter where you are. (Compatible with Android&iOS.) Control your appliances in advance when you are away from home.

Timer Setting: Take full control of your connected appliances intelligently with the timer feature on your App, allowing you to plan the exact time in advance to turn your devices on or off automatically. Auto on/off feature offers you countdown option of 1 min/5mins/30mins/1hour etc. Real time monitoring function that you can check the status of devices connected on the smart power consumption meter switch.

Share the control with your family members or friends for maximum convenience, controlling and monitoring the connected devices together. Support multiple phones to control one breaker or one phone to control multiple breakers at the same time.

can remotely control your switch and conveniently turn it on/off anywhere, anytime.

LCD display, Real-time display of Voltage, Current, Power, total Energy kWh

35mm Din Rail install Real-time view of electricity consumption

Specifications:

Model: AT4PW-WIFI

Type: Single-phase energy meter

Voltage: AC 85-265 (V)

Basic current: 100A

Power range: Max 26.5KW

Energy Measurement range: 0 ~ 99999kWh

Accuracy: +1%

Frequency: 50/60 (Hz)

Power factor: 0-1.00PF

Power consuming: <0.3W

Wireless Type: 2.4GHz 802.11b/g/n

Display: voltage, current, real-time power consumption, total power

Product size: 97x76x76mm Rail Mounting Dimensions: 35mm

Ambient temperature: -20°C ~ +60°C

Screen Type: 2.4inch TFT-LCD HD Display Panel Graphic 240'RGB'320 Dot-matrix

Date function: month/day

Large screen measurement digital display function Works with Amazon Alexa & Google Home

Smart power outlet works with Amazon Alexa, Smarthings and Google Home, just say what you want to do and it will happen right away.

*Remote control

*Timer function

*Over current Protection

*Over voltage protection

*Under voltage protection
