

# I-MATCH 3

## Rechargeable headlamp for DETAILING and COLOUR MATCH

Compared to the previous model, the new I-MATCH 3 features ALL DAYLIGHT function, offering 5 different colour temperatures depending on the type of job to be carried out. It is also updated to provide a stepless dimmer function, enabling you to easily adjust the light output in the range from 10% to 100%.

Supplied with the newest COB LED technology, the rechargeable I-MATCH 3 headlamp provides an extremely powerful illumination spreading the uniform light to the maximum and lightens up your entire field of view. It has been upgraded from 160 lumen to 250 lumen and is the ultimate tool providing hands-free illumination for any detailing or colour match job. In sensor mode, the light can easily be switched on/off by waving your hand in front of the lamp - even if you are wearing gloves.

I-MATCH 3 is provided with the very newest rechargeable battery technology and as optional accessory, the SCANGRIP POWER BANK 03.5782 can be used for increased operating time. Simply attach the powerbank to the head band via the enclosed flexible clip holder and connect the cable to the headlamp.

The robust and sleek I-MATCH 3 has a modern and streamlined design and is both dust and waterproof (IP65) with a remarkably low weight, only 100g.

I-MATCH 3 will replace 03.5446 I-MATCH 2 which will be discontinued.
