

SKINTACT Stress Test & Holter ECG Electrodes

"SKINTACT Offset ECG electrodes are designed to provide the highest quality tracings for Stress Test procedures. Our offset design and Aqua-Set gel significantly reduce any motion artifacts ensuring a very clear stable trace even under the most strenuous conditions."

Manufactured using Leonhard Lang's unique C-LINE technology which ensures that every electrode will be fresh providing you with exceptional consistency in quality of recordings at very affordable prices.

SKINTACT Stress Test & Holter ECG Electrodes

The professional's choice

Excellent Trace Quality. Quick and consistently excellent signal quality is obtained with all three gels: Aqua-Wet, Aqua-Tac and Aqua-Set. Using Easiprep further improves trace quality.

Superior Design. Leonhard Lang's Aqua-Set gel reduces motion artifacts ensuring a clear and stable tracing. The offset contact design of SKINTACT FS-VB00, FS-VB04 and CT-VH01 further compensates the impact of patient movements on the signal significantly.

Secure Adhesion. The enhanced adhesive sticks reliably even when the patient is sweating. The protective

foam backing is impermeable to liquids, SKINTACT stress test electrodes are therefore suitable for Echo, too.

Patient comfort. The light microporous backing of SKINTACT T-604 promotes breathability and ensures skin friendly comfort during holter ECG.

Easy to handle. The easy to open pouch and the handling aids on all SKINTACT stress test and holter electrodes facilitate use. Lead wires can be clipped on SKINTACT offset snap FS-VB01 or CT-VH01 even more conveniently.

Order Code	FS-50	FS-524	T-604
Gel, Connector	Aqua-Wet, Snap	Aqua-Set, Snap	Aqua-Set, Snap
Backing, Adhesive	Foam, Enhanced	Foam, Enhanced	Tape, Standard
Dimensions	50 mm	35 x 50 mm	60 mm
Suggested Use	Stress Test	Stress Test	Holter
Packaging Standard	30/pouch 1.200/box 4.800/case	30/pouch 1.200/box 4.800/case	30/pouch 1.200/box 4.800/case

Order Code	FS-VB01	FS-VB00	FS-VB04 *)	CT-VH01
Gel, Connector	Aqua-Wet, Offset Snap	Aqua-Wet, Tab	Aqua-Wet, 4 mm Adaptor	Aqua-Wet, Offset Snap
Backing, Adhesive	Foam, Enhanced	Foam, Enhanced	Foam, Enhanced	Clear Tape, Standard
Dimensions	36 x 53 mm	36 x 53 mm	36 x 53 mm	68 mm
Suggested Use	Stress Test	Stress Test	Stress Test	Holter
Packaging Standard	30/pouch 1.200/box 4.800/case	30/pouch 1.200/box 4.800/case	30/pouch 750/box 3.000/case	30/pouch 1.200/box 4.800/case

*) Also available with 3 mm adaptor (order code FS-VB03) or with enhanced split 4 mm adaptor (order code FS-VB05).

Order Code	58100	58727	58726
Product	Easclip	Easiprep	Easiprep
Packaging Standard	10/pouch	500/pouch	50/pouch

All SKINTACT Stress Test & Holter ECG electrodes meet the ANSI/AAMI standard EC12:2000 for disposable pregelled ECG electrodes.
