

# Sensor AF, AFS, KF/SPF, KFS/SPFS, VF, VFAS, KLF, KLFS

Technical Information · GB

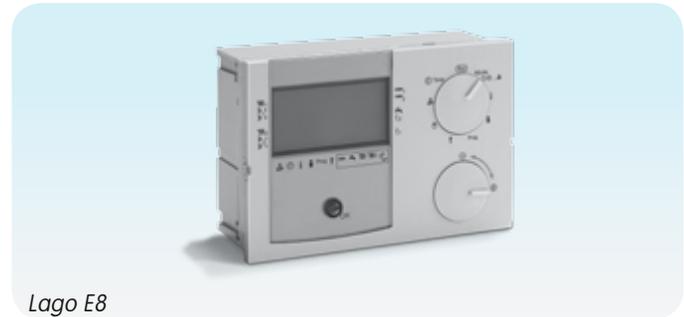

10 Edition 08.10

- Temperature sensor for use in all areas of heating, solar, solid fuel, buffer, heat pump and cooling systems
- A variety of sensing elements are available: 1 k $\Omega$  PTC, 5 k $\Omega$  NTC and Pt 1000

## 1 Application

The temperature sensor can be used in all types of heating, solar, solid fuel, buffer, heat pump and cooling systems. The following temperature sensors are available:

- Outside sensor AF/AFS for measuring the outside temperature.
- Boiler sensor KF/KFS for sensing the heat source temperature.
- Contact flow temperature sensor VF/VFAS for measuring the flow and return flow temperatures.
- Storage sensor SPF/SPFS for measuring the hot-water temperature.
- Collector sensor KLF, KLFS for measuring the medium temperature on the solar collectors.

## 2 Function

Three different sensing elements are used: 1 k $\Omega$  PTC, 5 k $\Omega$  NTC or Pt 1000. The electrical resistance changes with changing temperatures in all types.

For the PT 1000, the nominal resistance value of 1000  $\Omega$  is reached at 0 °C. The changes in resistance at different temperatures are defined in EN 60751. This ensures that the accuracy of measurement is retained when temperature sensors are replaced.

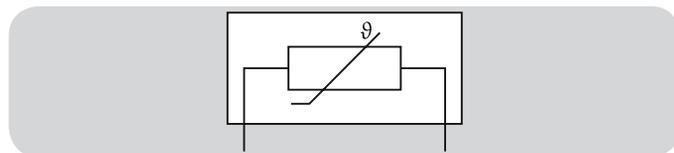

The 5 k $\Omega$  NTC (negative temperature coefficient) is a thermistor whose resistance decreases with increasing ambient temperatures.

The opposite applies to the 1 k $\Omega$  PTC (positive temperature coefficient resistor) where the resistance value decreases with decreasing temperatures.

With the 5 k $\Omega$  NTC and 1 k $\Omega$  PTC respectively, the nominal resistance is reached at 25 °C.

The accuracy of measurement in these types is also great enough for them to be replaced without needing to change anything on the heating controller, see page 6 (Technical data).

## 2.1 Electrical connection

Connection for two conductors, permutable

Temperature sensor with lead: Core cross-section 2x 0.34 mm<sup>2</sup> with wire end sleeves, outside sensor: Screw terminal for cable cross-sections up to 1.5 mm<sup>2</sup>

### 3 Selection

The different temperature sensor types can be used for the following series of controllers:

Controller series	1 k $\Omega$ PTC: AFS, VFAS, KFS/SPFS, KLFS	5 k $\Omega$ NTC AF, VF, KF/ SPF, KLF	Pt 1000 VF1000, SPF1000, KLF1000
K1	●		
E25	●		
Lago	●	●	
E8	●	●	
Merlin	●	●	●*
Lago SD			●

Never mix types of temperature sensors. Please refer to the respective technical instructions for further details.

\* Pt 1000-temperature sensor only as multifunction sensor.

## 4 Technical data

Response time (63 % of the final value):  
 ≤ 16 s in medium that is in motion.

Seal:

IP protection class based on tests in accordance with  
 EN 60529, see data table.

Material:

Housing, cable: see data table,

Sleeve: stainless steel,

Spring: stainless spring steel.

Insulation and electric strength:

Insulation resistance: sleeve to the electrical connections  
 ≥ 10 MΩ,

Electric resistance: Sleeve to the electrical connections  
 DC 500 V.

Accuracy / Deviation of measurement:

1 kΩ, PTC at 25 °C: 1010 Ω ±1 % corresponds to ±1.3 K,  
 within the temperature range from -40 to +25 °C: ±2.74 K,  
 within the temperature range from +25 to +120 °C: ±4.33 K.

5 kΩ, NTC at 25 °C: 5 Ω ±1 % corresponds to ±0.2 K,  
 within the temperature range from -40 to +25 °C: ±0.5 K,  
 within the temperature range from +25 to +155 °C: ±1.8 K.

Pt 1000 at 0 °C: 1000 Ω ±0.12 % in accordance with  
 EN 60751, Class B.

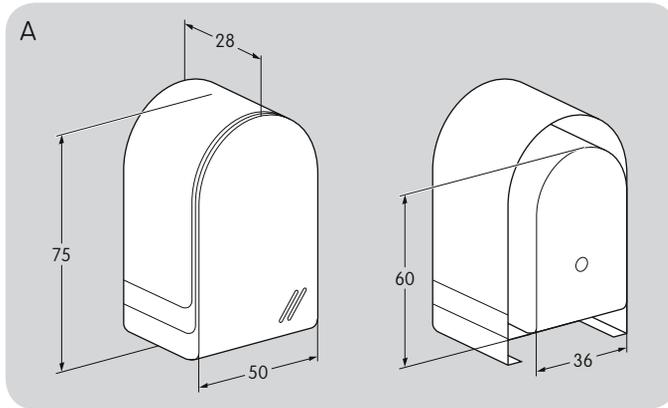

### 4.1 Data table

Type	L [m]	Ød [mm]	l [mm]	F [mm]	Dia- gram	Spring	Seal	Protection class	Material	Pull-off force [N]	Temperature range [°C]
<b>1 kΩ PTC</b>											
AFS	–	–	–	–	A	–	–	IP 44	ASA, grey	–	-40 – +60
VFAS	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
KFS/SPFS	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
KLFS	3	6	50	50	B	yes	clamped	IP 67	Silicone, red	30	-30 – +120
<b>5 kΩ NTC</b>											
AF	–	–	–	–	A	–	–	IP 44	ASA, grey	–	-40 – +60
VF	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
KF/SPF	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
KLF	2	6	45	–	C	no	roller burnished	IP 65	Silicone, red	50	-30 – +155
<b>Pt 1000</b>											
KLF1000	2	6	50	50	B	yes	clamped	IP 67	Silicone, red	30	-30 – +180
VF1000	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
SPF1000	3	6	50	50	B	yes	clamped	IP 67	PVC, grey	30	+5 – +95*
KLF1000	1.5	5.5	36	–	C	no	roller bur- nished	IP 67	Teflon, white	25	-30 – +250

\* Short term +105 °C.

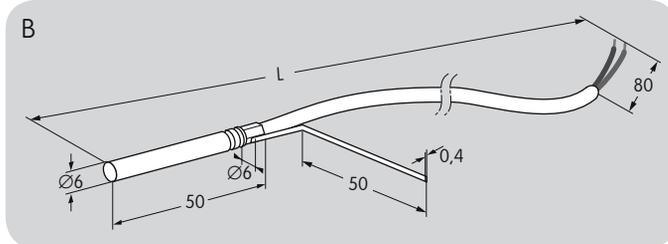

## 4.2 Dimensions

### 4.2.1 Outside sensor AF, AFS

The outside sensors are supplied with installation material consisting of dowel and wood screw.

### 4.2.2 Contact flow temperature sensor VF, VFAS, VF 1000, Boiler / Storage sensor KF/SPF, KFS/SPFS, SPF1000, collector sensor KLFS

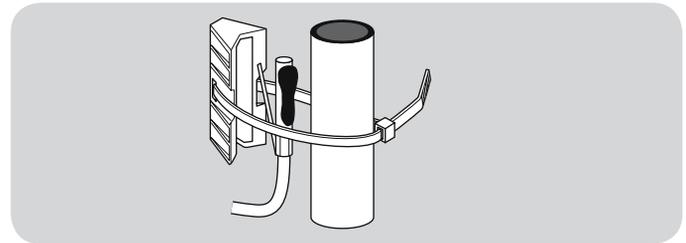

The contact flow temperature sensors are supplied with installation material consisting of press-on cap, retaining strap and heat conductive paste.

### Installation VF/VFAS

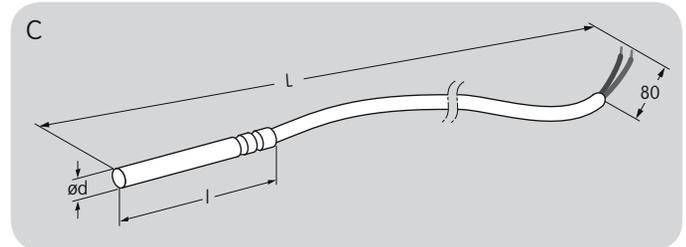

For heating system control, the VF/VFAS flow sensors are installed instead of the KF boiler sensor as close as possible to the rear of the boiler on the heater flow pipe.

For mixer operation, the VF/VFAS flow sensors are installed approx. 0.5 m downstream of the circulation pump.

The flow sensors are easily fastened using the retaining strap and the the press-on cap included in delivery.

### 4.2.3 Collector sensors KLF, KLF1000

### 4.3 Resistance values

## Feedback

Finally, we are offering you the opportunity to assess this "Technical Information (TI)" and to give us your opinion, so that we can improve our documents further and suit them to your needs.

### Clarity

- Found information quickly
- Searched for a long time
- Didn't find information
- What is missing?
- No answer

### Comprehension

- Coherent
- Too complicated
- No answer

### Scope

- Too little
- Sufficient
- Too wide
- No answer

### Use

- To get to know the product
- To choose a product
- Planning
- To look for information

### Navigation

- I can find my way around
- I got "lost"
- No answer

### My scope of functions

- Technical department
- Sales
- No answer
