

SMART-IS

THE SMART AND RESPONSIBLE CONTROLLER

Compatibility

24V valves

Stations

2/4/6/9/12

Sensor input

or

Power

230VAC / 24VAC

Connection

Managed via

SMART-IS

SMART-IS is an AC powered Wi-Fi and Bluetooth® irrigation controller. Connected to the local weather forecasts it adapts the programming to weather changes. It can also follow your water consumption by connecting to water meters equipped with a pulse contactor.

Simple et complete

Manual control, duration, starts and watering cycle, rain delay.

Connected to the weather

Automatically reduce or increase watering time according to weather forecasts.

Control your water consumption

The water meters equipped with a pulse contactor installed on the SMART-IS allows to indicate the volume of water (daily, weekly, monthly or yearly), to identify an abnormal flow and detect possible leaks.

Localize your controller

The controller position is registered in the MySOLEM platform.

Simplified maintenance

Permanent backup of the programm.

INSTALLATION

To set up indoor or in a sheltered place
External transformer 230V/24VAC
Electrical connection terminals
Sensor input : connection to a water meters equipped with a pulse contactor or a rain sensor
Master valve connection or pump start relay
Solenoid connection 24V
Operating temperature : from -20°C to 60°C

Surge protection to 4 kV
Bluetooth® Smart 4.0 Low Energy
Wi-Fi 802.11 b/g/n, WPA2-PSK, WPA, WEP

DIMENSIONS

Width: 11 cm (2/4/6 stations)
or 16 cm (9/12 stations)
Height: 14,5 cm
Depth: 3,6 cm

FEATURES

Power : 230 V-50 Hz / 24 V-50 Hz
Max. Consumption : 0,75 A (18 VA)

+ 33 (0)4 67 59 24 25
