

TEKA

filtoo®

*Extraction and filter system
for continuous use!*

**EFFICIENCY
FOR A GREAT
PRICE!**

*Imitated many times
but never equalled!!!*

Welding fumes

Cutting dust / fumes

Laser smoke

Adhesive vapors

Grinding dust

Drill dust

Plasma smoke

and much more

filtoo® does not shy away from any comparison!

-  GS mark PLUS IFA certification
-  4-stage filter system including activated carbon filters
-  3 m hose
-  Quality industrial casters
-  Optional spark arrestor concept (STAVO)
-  Tightening device for filter cartridge
-  High extraction performance (1600 m³/h)
-  Additional socket easily accessible on the side
-  Designed for continuous use
-  Intelligently designed maintenance door
-  Extremely quiet (68 db/A)

Technical data

Max. volumetric flow	1600 m³/h
Max. pressure	1800 Pa
Motor performance	1,1 kW
Voltage	230 V/50 Hz
Dimensions	580 x 580 x 900 mm
Weight	approx. 80 kg
