

Vegan Status and Animal Testing

AAK USA confirms the following regarding vegan status and animal usage:

- Materials of animal origin are not used as ingredients or in processing.
 - No ingredients are in the final product other than what is listed on the Product Data Sheet (PDS).
- No materials of animal origin are stored at any facility.
- Products are compliant with vegetarian, lacto-vegetarian, ovo-vegetarian, lacto-ovo vegetarian, and vegan diets.
 - No meat, poultry, seafood or related products (Gelatin, broths, gravy, lard etc.)
 - No eggs or egg containing products
 - No milk/dairy or milk/dairy containing products
 - No honey
- Potential sources of upstream contamination are identified and monitored.
- Products are not tested on animal in any capacity. Animal testing is confirmed to not have been done internally or externally (third party testing) for any facility in the last five years or since the year of AAK acquisition if less.
 - AAK USA Richmond Corp (AAK Richmond) – Acquired in 2016
