DOORS**

CURVED SLIDING DOORS

Main features

Customized finishes.

Variety of aluminium profiles, colours and special solutions. Adaptable to any type of architectural design.

User friendly.

Ideal for intense, quick, ordered and safe movement.

Wide range of settings.

Concave or convex doors, bi-part or single slide, interlock system or combination of several doors to create circular doors.

Energy efficiency and sustainability.

Two curved doors in interlock system or a circular door provides an adequate insulation from the exterior and contributes to the building energy efficiency.

Wide variety of accessories.

To meet any need of access.

Low maintenance.

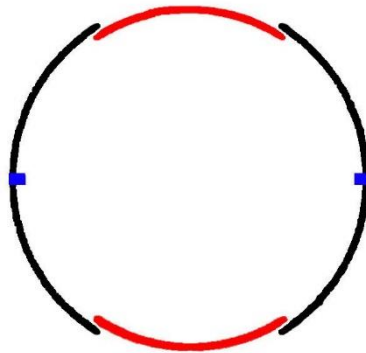

Visio Manusa operators with two three phase AC motors with Direct Drive, provide unbeatable durability and low maintenance.
