

Low impedance loudspeaker

**FEATURES**

Based on our extensive experience in the sound sector, FONESTAR has created SONORA.

SONORA is a series of loudspeakers specially designed for PA and ambient sound applications

The excellent finish and elegant design allow a perfect blend into any space.

They are fully prepared for outdoor use as they have aluminium mesh grilles and protection against water (IP-66) and marine environments.

In addition, SONORA provides excellent sound quality with a clear, distortion-free sound.

All the necessary accessories for quick and easy installation are included: adjustable mounting bracket with weather treatment, stainless steel screws and steel safety cable.

**APPLICATIONS**

For music and ambient sound applications in public places such as restaurants, cafes, supermarkets, shopping centres, etc.
