<b>Light-weight concrete hollow block</b>	Sepa Parpaing	[kN]	0.15	0.20	0.25	0.30 <sup>3)</sup>	0.25	0.30 <sup>3)</sup>	0.35	0.40 <sup>3)</sup>	0.50 <sup>3)</sup>	0.50 <sup>3)</sup>

<sup>1)</sup> Required safety factors are considered. Valid for installation and use in dry base material for temperatures in the substrate up to +24 °C (resp. short term up to +40 °C).

<sup>2)</sup> Valid for tension, shear and combined tension and shear load.

<sup>3)</sup> Load determination on plastered wall.

# Expansion plug SX Plus Green

The specialist for solid building materials with renewable raw materials.

Curtain rails

Mirrors

6

## Applications

- Lamps
- Wardrobes
- Motion detectors
- Skirting boards
- Light wall shelves
- Mirror cabinets
- Mailboxes
- TV consoles
- Trellis
- Folding shutters
- Fire detector

## Advantages

- The SX Plus Green is produced with at least 50% renewable raw materials and therefore particularly environmentally friendly.
- The 4-way expansion ensures optimum force transmission into the building material and guarantees high holding values in solid and perforated building materials.
- The special fixing wings ensure pre-fixation of the screw, leaving both of the user's hands free during the setting process.

- The expansion-free plug neck prevents the creation of expansion forces on the material surface whilst screwing in the screw. This helps to prevent damage to tiles and plaster.
- The special shape of the plug makes it easy to insert into the drill hole with just a few hammer blows.
- The pronounced edge of the plug prevents it from slipping deeper into the drill hole and enables secure installation.

## Certificates / Features

## Building materials

- Concrete
- Solid brick
- Solid sand-lime brick
- Aerated concrete
- Vertically perforated brick
- Perforated sand-lime brick
- Solid stone of lightweight concrete
- Hollow block of lightweight concrete
- Natural stone
- Hollow brick & concrete ceilings
- Solid gypsum boards

## Functioning

- The SX Plus Green is suitable for pre-positioned and push-through installation.
- When the plug is inserted, the fixing wings fold inwards. This locks the screw in place when it is inserted into the plug and prevents it from falling out, which is particularly helpful in overhead applications.
- When the screw is tightened, the SX Plus Green expands in four directions and thus anchors itself securely in the building material.
- The anti-rotation lock prevents the plug from twisting and allows for easy installation.
- Suitable for wood and chipboard screws, as well as stud screws.
- The required screw length is given by: the plug length + fixture thickness + the screw diameter.
