RAKOLL® ECO 4

One-component PVAc D4 System

RAKOLL® ECO 4 was designed to cover the market requirements for water resistant woodworking adhesives with low formaldehyde emissions.

RAKOLL® ECO 4 is a universal system and is applicable for furniture production, parquet flooring, window frames and window scantling, door manufacturing and solid wood bonding.

Window Frames

Advantages of RAKOLL® ECO 4

One-component adhesive	No need for mixing requirements: <ul style="list-style-type: none"> - Investment savings - Reduced waste - Eliminates mixing time
High water- and heat resistance	Fulfills the requirements according to DIN EN 204/205: D4 and DIN EN 14257 (WATT 91).
Versatility	RAKOLL® ECO 4 provides strong adhesion to many difficult to bond woods such as oak and larch.
Processing	Suitable for use on all application systems, e. g. roller, nozzle, spray application plus good radio frequency curing properties.
High productivity	Delivers fast strength properties immediately after bonding. Then in combination with a shorter pressing time, this adhesive can help to optimise productivity.
Storage	Improved storage stability for longer distribution channels.

Collaborating for Greater Success

With the full strength of our innovation, performance and knowledge behind you, H.B. Fuller works tirelessly to invent new products and tailor formulations to help you achieve greater success.

As your focused partner, H.B. Fuller delivers the technical support and value adding solutions you need. Do you have a specific challenge that H.B. Fuller can help you navigate? We're eager to be your partner for adhesives and solutions.

Our Focus is Clear. Perfecting Adhesives.
