English

3

Steps for connecting the APP to the device

Method One: Scan the QR code to configure the network guide.

- Make sure your Smart Life/Tuya Smart APP has successfully connected to a Zigbee gateway.

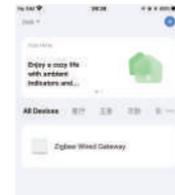

Scan the QR code
Please connect the device according to the configuration process.

English

4

Method Two:

- Make sure your Smart Life/Tuya Smart APP has successfully connected to a Zigbee Cable Gateway.

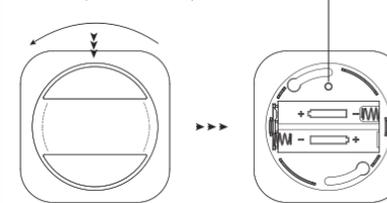

NOTE:
Make sure that the product is within the effective coverage of the Zigbee network of the smart host (Cable Gateway) to ensure an effective connection between the product and the Zigbee network of the smart host (Cable Gateway).

English

5

- Put the batteries into the battery compartment of the device.Press the reset button for more than 5 seconds until the indicator flashes, then add the device according to the App instructions.

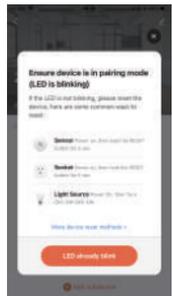

The knob opens the back cover and places the battery

English

6

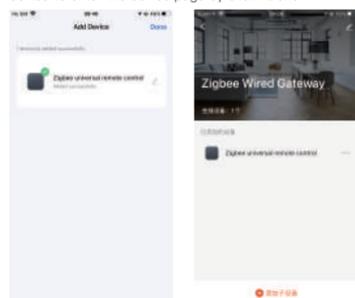

- Enter the cable gateway. Please follow the picture below to finish as, Add subdevice→LED already blink, and the configuration would take about 10-120s, which is up to the network condition.

English

7

- Add the device successfully, you can edit the name of the device to enter the device page by click "Done".

- Click "Done" to enter the device page to enjoy your smart life with home automation.

English

8

Enter Smart Life Skill in Alexa APP

1. Complete product networking configuration in the App

Complete the device's networking configuration according to the prompts in the App. Note: In the App, change the name of the device to an easily identifiable name such as Alexa; names are usually in English, such as "bed light".

2. Configure the Amazon Echo device

(If you have already configured Amazon Echo, you can skip this step. The following instructions are based on the iOS client.)

- Make sure you Amazon Echo device is powered on and connected to a Wi-Fi network.
- Open the Alexa APP on your phone and log in.
- Tap on the menu in the upper left corner of the Home page, select "Settings" and tap "Set Up A New Device" to set up the Amazon Echo.
- Choose your Amazon Echo device type and language for connecting.
- Press and hold the small dot on the device until the light turns yellow.
- Click "Continue" to connect to the hotspot, connect to the Amazon Echo hotspot, and return to the APP page.

English

9

- Click "Continue" to find and connect to your home Wi-Fi network.

⑧ Amazon Echo will take a few minutes to try to connect to the network.

⑨ After the network connection is successful, tap "Continue". An introduction video will appear. After the video ends, tap "Continue" to jump to the Alexa Home page.

⑩ You have now completed the Amazon Echo's configuration process.

3. Key step —— Link Skill

- Tap on "Skills" in the Alexa App menu.
- Then search for "App Name". Tap "Enable" to enable the Skill.
- Enter the App account and password, then tap "Link Now" to link your App account to enable the Skill. Now you can start your smart home journey.

4. Common commands

Control the device via voice commands, now you can control your smart device with Echo. You can control your device (such as your bedroom light) with the following commands:

English

10

Voice Control Instruct

Device	Alexa command list

- Any commitment (oral or written) made by the third party (including the dealer/service provider) to the user beyond the warranty scope shall be executed by the third party.
- Please keep this warranty card to ensure your rights.
- Our company may update or change the products without notice. Please refer to the official website for the updates.

RECYCLING INFORMATION

All products marked with the symbol for separate collection of waste electrical and electronic equipment (WEEE Directive 2012/19 / EU) must be disposed of separately from unsorted municipal waste. To protect your health and the environment, this equipment must be disposed of at designated collection points for electrical and electronic equipment designated by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences for the environment and human health. To find out where these collection points are and how they work, contact the installer or your local authority.
