

# Technical Data Sheet

## Typical Inspection Data:

Density @ 20°C	0.85 g/cm <sup>3</sup>
Viscosity @ 100°C (cSt)	5.5 cSt
Viscosity @ 40°C	32
Viscosity Index	110
Zinc (%)	0.05 %
Colour	straw
Phosphorus (%)	0.03 %
Pour Point (°C)	-42 °C

## HLP 32 HYDRAULIC OIL

### Hydraulic Oil

Recommended by Comma for applications requiring any of the following:

ISO VG 32

#### Product Features:

- Premium grade hydraulic oil suitable for use in hydraulic equipment operating under severe conditions requiring a HLP grade product.
- Ideal for tipping gear, fluid couplings, some torque converters, tail and garage lifts.
- Enhanced low-temperature properties for all seasons use.
- Also suitable for jacks.

#### Handling:

- Avoid extremes of temperature.
- Barrels should be stored under cover if possible
- If barrels must be stored outside then lay them on their side to prevent water collecting around the bungs
- Product in cardboard cartons must be stored under cover and away from damp conditions

#### Shelf life:

- 5 years from date of manufacture.
- Manufacture date
