

Specification: TSN_00_611

Product Name: Shaft (Pin) for Conveyor TSN-3B

Designation: TSN.00.611

Purpose:

The part is used as a shaft (pin) in the traction chain assembly of the TSN-3B conveyor. Together with plates TSN.00.496 and TSN.00.531, it forms the traction contour.

Material and Heat Treatment:

- Steel grade: 45 (according to GOST 2590-88, hot-rolled round steel)
- Heat treatment: completed (hardened)

Technical Characteristics:

- Inner diameter: 95 mm
- Outer (working) diameter: 293 mm
- Weight: 9 kg
- Product code: TSN.00.611 (variants -01, -02)
- Application: for TSN-3B conveyor

Application and Components:

The shaft is used in the traction contour of the TSN-3B conveyor together with plates TSN.00.496 and TSN.00.531.

Special Instructions:

- Check geometry (diameters, taper), heat treatment quality, and absence of cracks or defects.
- Store in a dry place, protected from corrosion.
- During installation, check proper fit into plates and correct engagement with the chain.

Packing and Delivery:

- Packed in film or crate depending on transport distance.
- Delivery: Nova Poshta, SAT, Delivery, or pickup.
- Payment upon receipt, VAT invoices available.

Notes:

Custom manufacturing available according to customer's drawings (different diameter, length, or material).
