

INVEST IN THE FUTURE

CARMIG-E AUTO

200 A - 230 V

087675

The MIG welding solution for simple, fast and effective car body repairs on steel and aluminium.

SUITABLE FOR BRAZING THIN-GAUGE STEELS

Perfect for all alloys used in the automotive industry, especially very thin carbon steels with zinc coatings.

SIMPLIFIED SETTINGS

With an intuitive digital interface and a handy quick settings chart, it is easy to set the parameters for different workpiece thicknesses and materials.

DESIGNED FOR AUTOMOTIVE WORKSHOPS

4-roller wire feeder for smooth wire delivery, integrated preheating plug, ergonomic torch holder with large storage compartment, bottle support for cylinders up to 4 m³, and 4 reinforced wheels for optimum mobility.
