

Specification

Product: Conveyor Scraper TSN-160A

Application: Used in scraper conveyor TSN-160A for transportation of bulk and feed materials.

Parameter	Description
Product name	Conveyor Scraper TSN-160A
Type	Scraper element
Material	Structural steel (high-strength)
Manufacturing method	Cutting, welding, quality control
Compatibility	Conveyor TSN-160A
Function	Transportation of material along conveyor trough
Operating conditions	Agricultural environment
Condition	New

Note: Dimensions and weight depend on the specific modification of the conveyor.
