
Blueberry Lychee + Sugar Milk

SECTION 1: IDENTIFICATION

Product Identifier: Blueberry Lychee + Sugar Milk

Recommended Use: No information available

Restrictions on Use: No information available

Supplier: Midwest Fragrance Company
4185 124th Street Chippewa Falls, WI 54729
Phone: 1-800-535-5053

Emergency Telephone: 1-800-535-5053

Issue Date: 2025-11-04 | **Revision Date:** 2025-11-04

SECTION 2: HAZARD IDENTIFICATION

Classification:

- Flammable liquids Category 4
- Sensitization, skin Category 1A
- Hazardous to the aquatic environment, acute hazard Category 1
- Hazardous to the aquatic environment, long-term hazard Category 1

Signal Word: Warning

Hazard Statements:

- H227: Combustible liquid
- H317: May cause an allergic skin reaction
- H400: Very toxic to aquatic life
- H410: Very toxic to aquatic life with long lasting effects.

Precautionary Statements:

- P210: Keep away from flames and hot surfaces-No smoking
- P261: Avoid breathing mist/vapor
- P272: Contaminated work clothing must not be allowed out of the workplace
- P273: Avoid release to the environment
- P280: Wear protective gloves/eye protection/face protection
- P302 + P350: If on skin: Wash with plenty of water
- P333 + P313: If skin irritation or rash occurs: Get medical advice/attention

- P363: Wash contaminated clothing before reuse
- P370 + P378: In case of fire: Use appropriate media to extinguish
- P391: Collect spillage
- P403 + P235: Store in a well-ventilated place
- P501 - Dispose of contents/container in accordance with regulations

GHS Pictograms:

Other Hazards Not Otherwise Classified:

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS Number	Concentration (%)	Classification
No ingredients specified			

SECTION 4: FIRST-AID MEASURES

4.1 Description of First Aid Measures:

General: Move to fresh air and call a physician if symptoms develop or persist.

After Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

After Skin Contact: Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.

After Eye Contact: Rinse with water. Get medical attention if irritation develops and persists.

After Ingestion: Rinse mouth. Get medical attention if symptoms occur.

4.2 Most Important Symptoms and Effects:

After Inhalation: None under normal conditions

After Skin Contact: May cause an allergic skin reaction.

After Eye Contact: Direct contact with eyes may cause temporary irritation

After Ingestion: None under normal conditions

4.3 Immediate Medical Attention: Treat symptomatically

SECTION 5: FIRE-FIGHTING MEASURES

5.1 Suitable Extinguishing Media: Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂).

Unsuitable Extinguishing Media: Do not use water jet as an extinguisher, as this will spread the fire.

5.2 Specific Hazards:

Fire Hazard: No fire hazard

Explosion Hazard: No direct explosion hazard

5.3 Special Protective Equipment:

Firefighting Instructions: In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

Protection During Firefighting: Use standard firefighting procedures and consider the hazards of other involved materials.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions:

General Measures: Keep unnecessary personnel away. Eliminate all ignition sources.

For Non-Emergency Personnel:

Protective Equipment: Wear appropriate protective equipment and clothing during clean-up.

Emergency Procedures: Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area).

For Emergency Responders:

Protective Equipment: Wear appropriate protective equipment and clothing during clean-up.

Emergency Procedures: Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

6.2 Environmental Precautions: Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

6.3 Containment and Cleanup:

For Containment: Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.

Methods for Cleaning: Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water. Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Other Information: Never return spills to original containers for re-use.

6.4 Reference to Other Sections: For waste disposal, see section 13 of the SDS.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for Safe Handling:

Additional Hazards: Keep away from open flames and avoid contact with eyes/skin.

Precautions: Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure.

Hygiene Measures: Observe good industrial hygiene practices.

7.2 Conditions for Safe Storage:

Technical Measures: Keep away from heat, sparks and open flame.

Storage Conditions: Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place.

Packaging Materials: Store away from incompatible materials (see Section 10 of the SDS).

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits:

Substance	Type	Value	Unit	Authority
No exposure limits specified				

8.2 Engineering Controls:

Appropriate Controls: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Environmental Controls: No information available

8.3 Personal Protection:

General: Wear recommended personal protective equipment

Hand Protection: Wear appropriate chemical resistant gloves.

Eye Protection: Face shield is recommended. Wear safety glasses with side shields (or goggles).

Skin/Body Protection: Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Respiratory Protection: If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid.
Odor	Characteristic.
pH	Not available.
Melting Point	Not available.
Boiling Point	Not available.
Flash Point	172 °F
Evaporation Rate	Not available.
Flammability	Not available.
Vapor Pressure	Not available.
Vapor Density	Not available.
Relative Density	0.93-0.95
Solubility	Not available.
Partition Coefficient	Not available.
Auto-Ignition Temperature	Not available.
Decomposition Temperature	Not available.
Viscosity	Not available.

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity: Stable and non-reactive under normal conditions.

10.2 Chemical Stability: Material is stable under normal conditions.

10.3 Possibility of Hazardous Reactions: No dangerous reaction known under conditions of normal use.

10.4 Conditions to Avoid: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

10.5 Incompatible Materials: Strong oxidizing agents.

10.6 Hazardous Decomposition Products: No hazardous decomposition products are known.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological Effects:

Acute Toxicity (Oral): No data available

Acute Toxicity (Dermal): No data available

Acute Toxicity (Inhalation): No data available

Aspiration Hazard: No data available

Viscosity, Kinematic: No data available
Symptoms After Inhalation: No data available
Symptoms After Skin Contact: No data available
Symptoms After Eye Contact: No data available
Symptoms After Ingestion: No data available
Germ Cell Mutagenicity: No data available
Carcinogenicity: No data available
Reproductive Toxicity: No data available
STOT-Single Exposure: No data available
STOT-Repeated Exposure: No data available
Skin Corrosion/Irritation: No data available
Serious Eye Damage/Irritation: No data available
Respiratory or Skin Sensitization: No data available

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity: No data available
12.2 Persistence and Degradability: No data available
12.3 Bioaccumulative Potential: No data available
12.4 Mobility in Soil: No data available
12.5 Other Adverse Effects: No data available

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Disposal Methods:

Regional Waste Regulation: Dispose in accordance with all applicable regulations.

Waste Treatment Methods: Dispose in accordance with all applicable regulations.

Sewage Disposal Recommendations: Dispose in accordance with all applicable regulations.

Product/Packaging Disposal: Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Additional Information:

SECTION 14: TRANSPORT INFORMATION

UN Number	UN3082
Proper Shipping Name	Environmentally hazardous substance, liquid, n.o.s.
Transport Hazard Class	9
Packing Group	III
Environmental Hazards	Yes - Marine pollutant

Special Precautions:

Transport Notes:

SECTION 15: REGULATORY INFORMATION

No data available

SECTION 16: OTHER INFORMATION

No data available
