

## SM MICRON SHAMPOO

### Description:

SM Micron Shampoo by Innovacar is the specific detergent and cleaner for accessories and microfiber cloths, polishing pads, car covers and wheel covers, suitable for both manual washing and machine washing.

It is a latest-generation microfiber wash developed specifically to gently clean cloths, preventing them from shedding fiber and hardening over time. Main features:

- **Double use:** It can be used both for manual washing and machine washing;
- **It removes the residuals of products:** it is suitable for the removal of polish, compound, waxes, glaze and sealants residuals;
- **Respectful of microfiber:** its specific formulation, the absence of bleach and fabric softeners combined with the carefulness of a correct washing (maximum temperature of 30°C and a maximum rotations number of 600-800) preserve the polyamide part contained in the microfiber, thus preserving the life of the cloths and of the accessories;
- **Enzyme Enhanced:** thanks to the presence of enzymes, it can cleanse in depth even at low temperatures, making it effective and respectful at the same time.

### Directions for use:

#### How to wash and clean microfiber cloths and polishing pads with SM Micron Shampoo:

It is recommended that new cloths first be hand-washed before use.

Subsequently, it is recommended to wash them separately according to their use and do not wash them together with other textiles.

For washing microfiber cloths, it is possible to proceed with machine washing or hand washing.

For washing polishing pads, it is possible to proceed with hand washing.

**For intense dirt:** prepare a pre-wash solution to be sprayed on the intense residuals of grease and dirt on the microfiber or on polishing pads. The recommended dilution is 1:4, i.e. use 200ml of product and add the remaining water part (800ml) to obtain a ready-to-use product.

Leave it on for a few minutes and then rinse by hand rubbing to remove most of the dirt.

**For machine washing:** use from 15ml to 40ml per kg of laundry depending on the intensity of dirt and on the hardness of water. Setting the washing degrees to a maximum of 30° and reducing the spin speed to a maximum of 600-800 rpm. Do not add fabric softeners or bleach and do not use the dryer.

**For hand washing:** use from 4ml to 8ml per L of water depending on the intensity of dirt.

Dosaggio	Poco Sporco	Sporco	Molto Sporco
Acqua Dolce / Media < = 25 °F (2,5 kg)	40 ml	60 ml	80 ml
Acqua Dura > 25 °F (2,5 kg)	60 ml	80 ml	100 ml
Bucato a mano (10 L)	40 ml	60 ml	80 ml

**Caution:**

Observe the advice on the safety data sheet when handling the product.

**Technical features:**

Appearance and colour: yellow liquid

Odour: characteristic

pH:  $7,2 \pm 0,5$

Flash point:  $>100\text{ }^{\circ}\text{C}$

Relative density:  $1,04\text{ g/cm}^3 \pm 0,05$

Solubility in water: soluble

Solubility in oil: partially soluble

**Storage:**

Unopened and stored at room temperature away from direct sunlight.

**Packaging:**
