

Specification – Spare Parts for ZM-60 Grain Thrower

This document provides general technical information and specification data for spare parts used in the ZM-60 grain thrower. The listed components are manufactured from high quality materials and designed for reliable operation in agricultural environments.

Part Name	Application	Material	Notes
Z-10 Sprocket	ZM-60 Conveyor Drive	Steel 45	Wear resistant, precision machined
Drive Shaft	ZM-60 Transmission	Alloy Steel	High load resistance
Bearing Housing	ZM-60 Conveyor Support	Steel	Heavy duty construction
Conveyor Chain	Grain Transport System	Hardened Steel	Long service life
Tension Roller	Chain Tension System	Steel	Smooth rotation
