

VicStudio Box MKII PA

Combining some of our most popular products in an easy-to-use and install package, a home studio owner can get everything required to have a treated studio that will sound great and look even better.

Depending on the goals or the available budget for the room you may acquire one or several boxes. Consisting of one single box containing 8 units of Wavewood Ultra Lite, 2 of units of the new Multifuser DC4 and 2 tubes of Flexi Glue Ultra to install it all, VicStudio Box is an acoustic kit appropriated to treat your Project Studio.

Acoustic solutions will always have a visual impact. The VicStudio Box can be acquired in three different finishes, so that you have more options available when it comes to deciding the look you want for your room.

The kit includes the new Multifuser DC4, with built-in holder ribs so it can be installed on a wall with a VicFix fixation system, using VicFix Mini (included), or VicFix J Profile 80mm (sold separately), or VicFix Corner (sold separately). It is also compatible with Flexi Glue Ultra (included), which is required for ceiling installation.
