

Specification – Flipper 16.5/70-18 for Tractor Trailer 2PTS-6

The flipper 16.5/70-18 is designed for use with tractor trailers and agricultural machinery, including the 2PTS-6 trailer. The product provides additional protection for the tire tube, reduces friction between the tube and tire, and increases the service life of the wheel assembly.

Parameter	Specification
Product Name	Flipper 16.5/70-18
Application	Tractor trailer 2PTS-6
Type	Protective flipper for agricultural wheel
Compatible Tire Size	16.5/70-18
Material	High-strength rubber compound
Purpose	Protection of tube from friction and mechanical damage
Resistance	Wear-resistant and deformation-resistant
Operating Conditions	Agricultural and transport operations
Color	Black
Installation	Mounted between tire and tube
Country of Use	Suitable for agricultural machinery

Note: Specifications may vary depending on manufacturer and production batch.
