Groin Panel MOLLE  
with General Purpose Pocket - 6x9

# Groin Panel MOLLE | Product Overview

Your plate carrier covers the heart and lungs, which is great for staying alive, but it leaves your "most prized possessions" flapping in the breeze and extremely vulnerable. Whether it's stray fragmentation or the most epic cheap shot known to man, the Groin Panel MOLLE is here to ensure your future children remain a possibility, not just a memory. The G-Hook Dangler® mount inserts into the front plate bag similar to the Dangler® and allows for quick Donning/ Doffing. The front of the Groin Panel MOLLE features 6 column / 3 row laser-cut MOLLE perfect for our General Purpose Pocket - 6x9 or anything you want to run near your nether region.

## Features:

- Groin Panel Soft Armor NIJ 0101.07 Level HG2

- Groin Panel MOLLE
- Groin Panel Soft Armor
- G-Hook Placard

Groin Panel MOLLE (Front)

Groin Panel MOLLE (Back)

## Groin Panel Soft Armor | Installation

Installing the Groin Panel Soft Armor into the Groin Panel MOLLE

1. The Groin Panel MOLLE comes with the Groin Panel MOLLE, Groin Panel Soft Armor, and the G-Hook Placard as separate components. The label side of the Soft Armor is the body side.

2. To insert the Groin Panel Soft Armor into the Groin Panel MOLLE, start by folding the Soft Armor in half vertically. The label side of the Soft Armor is the body side.

## Groin Panel Soft Armor | Installation

Installing the Groin Panel Soft Armor into the Groin Panel MOLLE

3. While keeping the Soft Armor folded in half vertically insert the Soft Armor into the Groin Panel MOLLE so that it is seated all the way to the bottom.

4. Once the Soft Armor has been seated at the bottom of the Groin Panel MOLLE ensure that the corners of the Soft Armor are seated with the corners of the Groin Panel MOLLE.

## Groin Panel Soft Armor | Installation

Installing the Groin Panel Soft Armor into the Groin Panel MOLLE

5. Once the Soft Armor has been seated properly, press down on the Soft Armor to flatten into the Groin Panel MOLLE.

6. Before sealing the Velcro closer, ensure that the Groin Panel Molle seams are not rolled to the front or the back.

## Groin Panel Soft Armor | Installation

Installing the Groin Panel Soft Armor into the Groin Panel MOLLE

7. Once the Soft Armor has been positioned correctly, seal the Velcro closer on the back.

## G-Hook Placard | Installation

Installing the G-Hook Placard onto the Groin Panel MOLLE

1. Place G-Hook through the Groin Panel MOLLE loop at the top of the Groin Panel MOLLE.

2. Ensure that both G-Hooks are properly installed on both sides of the Groin Panel MOLLE.

## Groin Panel MOLLE | Installation

Installing the Groin Panel MOLLE onto the carrier

1. Start by removing armor from the front plate bag of the carrier.

2. Place G-Hook Placard into the front plate bag, ensuring that the G-Hook placard is fully seated into the plate bag and is straight. Attach the hook side of the placard to the loop side of the plate bag.

## Groin Panel MOLLE | Installation

Installing the Groin Panel MOLLE onto the carrier

3. Reinsert the armor into the carrier.

4. Re-insert the armor flap into the plate bag. Attach the hook of the armor flap closure to the loop on the front of the G-Hook Placard.

## Groin Panel MOLLE | Installation

Installing the Groin Panel MOLLE onto the carrier

5. Re-insert the plate flap into the plate bag. Attach the hook of the plate flap closure to the loop on the front of the Groin Panel MOLLE.

6. Ensure that the Groin Panel MOLLE is fully seated at the proper ride height on the front of the carrier.

## Groin Panel MOLLE | Installation

Installing the Groin Panel MOLLE onto the carrier

7. The laser-cut MOLLE on the front of the Groin Panel MOLLE allows you to add items to the front of the Groin Panel MOLLE.

8. Ensure that all items added onto the front of the Groin Panel MOLLE are attached properly before use.
